Hi all,

It looks like both Angela and I are on this email because we are the POCs for the White House Environmental Justice Advisory Council. It looks like this is just asking us for the right point of contacts for a new group – Justice40? Adding Tanya as well because Stephanie told her that career staff had been attending some of the EJ meetings. I'm honestly a little confused what the difference is between this new group and the current working group.

Justice40 focuses on federal activities that have the intent to address (*or could potentially address*) the disproportionately high and adverse human health, environmental, climate-related, economic, and other cumulative impacts on disadvantaged communities and energy communities. Please provide information on the following:

If anyone has ideas for who should be our POCs for Justice40, that would be great!

Thanks,

AZ

Subject: FW: Due 12noon on Friday, 06/25: OMB Report on Interim Implementation Guidance for Justice40 Initiative

Good Afternoon Jim:

OMB has requested comments on the attached draft *Memorandum for the Heads of Departments and Agencies*. The subject is “*Interim Implementation Guidance for the Justice40 Initiative*” (interim guidance).

The Justice40 initiative was established under [Executive Order 14008](#), *Tackling the Climate Crisis at Home and Abroad* (January 27, 2021), which directed the OMB Director, the Chair of the Council on Environmental Quality and the National Climate Advisor, in consultation with the White House Environmental Justice Advisory Council, to jointly publish guidance on how certain Federal investments might be made toward a goal that 40 percent of the overall benefits of such investments flow to disadvantaged communities. The attached guidance provides initial recommendations pursuant to section 223 of Executive Order 14008.

Although OSHA grant making could be interpreted to cover climate change/climate environment (e.g., OSHA FOAs discuss temperature extremes whether cold or hot in construction, general, and maritime industries), DAP recommended clearing. OSHA’s clearance is due by **Noon on Friday, June**

25th. The SOL summary is below.

Thanks,
