Subject: Checking in re: ABQ
Date: Wednesday, July 5, 2023 7:35:12 PM

Hi Josh,

Thank you so much for your continued support moving the agencies toward designation. We wanted to do a quick check in regarding the ABQ designation. We were wondering if it is alright if we reached out to Secretary Toulouse-Oliver's office? We'd like to ask for a copy of the designation she executed for the SIPI, let her know about the possibility of designation of the ABQ facility, and potentially broach the subject of a meeting in August. Of course, if you prefer to do that we are happy to defer to you. What do you think?

Thanks,

Jacqueline De León

Hello,

Thank you so much for reaching out, as these types of designations have been the subject of internal discussion in our office during recent months. It's exciting to hear a potential opportunity for designation of IHS. We are meeting later this week, which will provide an opportunity to answer specific questions you may have and set the foundation for the designation process moving forward.

In the meantime, I am sharing some information related to designation that we have in statute and rule that may help answer some of your questions. Please see attached and below. (*Note: We are in the process of updating rulemaking language. This rule has not been scheduled for rulemaking this summer but will be updated later to reflect changes passed by the legislature this year and potentially other updates.*)

We do have a coding system for agency registrations, trainings/a guide for designated registration agencies, and can provide forms for registration. I am also researching the documentation related to the SIPI designation, but I do not have a firm update for you at this time.

At any rate, I look forward to discussing these items further on Friday.

Best,

Lindsey

1-4-5.2. Agency registration; form.

A. A qualified elector may register to vote at certain state government offices.

B. Pursuant to Section 1-4-47 NMSA 1978, a qualified elector who applies for a driver's license, license renewal or motor vehicle identification card may simultaneously register to vote or file a change of address for voter registration purposes.

C. Pursuant to Section 1-4-48 NMSA 1978, a qualified elector may register to vote in any state agency that provides public assistance or services to persons with disabilities. The secretary of state may designate other state or local public offices with the agreement of those offices.

History: 1978 Comp., § 1-4-5.2, enacted by Laws 1995, ch. 198, § 3.

1-4-48. State-agency-based voter registration program--established--human services department.--

A. The secretary of state shall adopt and publish in accordance with the State Rules Act rules for the administration of a state-agency-based voter registration program. The rules shall provide for distribution of voter registration forms, provisions for the acceptance of voter registration forms and procedures for reporting voter registration activity in accordance with the federal National Voter Registration Act of 1993.

B. Voter registration shall be made available at all state agencies providing public assistance or services to people with disabilities. The secretary of state may designate other state and local public offices to provide voter registration services with the agreement of those offices.

C. Each state agency participating in the voter registration program shall maintain sufficient records for the secretary of state to comply with federal voter registration reporting requirements and the federal Help America Vote Act of 2002. Any records maintained by a state agency regarding voter registration activities in that agency are confidential and shall not be released as public records.

D. Any voter registration made or accepted at a state agency pursuant to this section shall be transmitted to the appropriate registration officer within ten calendar days.

E. A state agency employee or agency contractor who participates in the voter registration process may not intentionally influence the prospective registrant in the selection of political party, or independent status, by word or act. A state agency employee or agency contractor who participates in the voter registration process may not reveal the existence of or the nature of the voter registration to anyone other than a registration officer.

F. The human services department shall develop procedures to be approved by the secretary of state to ensure that each benefit program administered by the department appropriately ensures that qualified electors receiving benefits are offered the opportunity to register to vote or update an existing certificate of registration without duplication of information contained by the department or by the secretary of state. No later than the last day of August of each calendar year, the human services department shall issue an annual report detailing implementation of the requirements of this subsection. The report shall be sent to the

legislative council service, the secretary of state and each county clerk.

G. If a person who is not a qualified elector becomes registered to vote pursuant to this section, the person's registration shall be canceled and the person shall be deemed to have never registered.

(NEW - House Bill 4, 2023)

1-4-5.3. Registration; lack of physical address.

A. If a qualified elector resides in an area lacking a specific physical address, the qualified elector shall be allowed to substitute a mailing address along with a description, such as a map or the latitude and longitude, indicating where the qualified elector resides. The qualified elector shall be assigned to a precinct based on the geographic description of where the qualified elector resides.

B. The secretary of state shall issue rules regarding acceptable forms of non-physical addresses.

CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments.

Hi Theresa,

Thank you for the quick reply. Next Friday at 10:30 works for us. We are looking forward to connecting! We can send around an invite.

In anticipation of our meeting, we have a couple of updates. It turns out in my previous email I mistakenly said Albuquerque IHS is the facility that wanted to be designated. ABQ IHS is the region, and Santa Fe IHS is the facility that would like to be designated. We've had a preliminary conversation with the Santa Fe IHS facility. The facility is enthusiastic and they have described their intake procedures. From that conversation, a handful of questions arose we are hoping to discuss on Friday:

1. How does the facility get the registration forms?
2. Are the registration forms coded, and if so can the forms be coded to track the forms coming from IHS to keep track of the number of IHS registrations? If they are not coded how does NM keep track of registrations from its NVRA designated facilities?
3. Santa Fe IHS services multiple counties, does the IHS facility need to sort the

registrations or can they send the registrations directly to the Secretary's office or another office?

4. Does the Secretary's office have trainings on NVRA designation compliance? Does the Secretary specifically have trainings on individuals who utilize PO Boxes and do not have a residential address?

Finally, is it possible to get the MOU executed for designation between SIPI and the Secretary? We are looking for sample designation agreements.

Thank you very much! We look forward to talking to you on Friday.

Good afternoon/morning,

I hope the end of the year was joyful and you stated 2024 refreshed.

I wanted to circle back to this and see if there are any new developments and timeline update.

As I recall, there was an initially timeframe of March/April. I believe that was to develop training and materials. I am unsure if you are aware, but in addition to HHS/IHS the DOI Bureau of Indian Education the Veterans Health Administration were also included in the EO.

The BIE-operated Southwestern Indian Polytechnic Institute, in ABQ, received designation in late 2022 or early 2023. Dr. Cecelia Cometsevah, vice president for student affairs at SIPI, headed up the efforts and worked with Suzanne Hursh in the SoS office. State personnel came to our campus, provided a presentation, and staff were deputized. The establishment of the office did not take long at all, so they say. Just wanted to flag for you in case you were unaware of that established connection.

In any case, looking forward to reconnecting in the new year and helping move this work forward.

Best,
Josh

Subject: RE: [EXTERNAL] Santa Fe Service Unit, NVRA, and EO 14019

Good afternoon,

Great! Thanks for the update. Looking forward to Santa Fe getting the all clear.

In terms of the event, we are open to times that work for you all. It doesn't have to be concurrent or near the time of the designation—especially as we get to the end of the year and the busy holiday season. As soon as we get a timeline for when the designation will land we can plan something to include SFSU, Area Office, and IHS national leadership, perhaps some tribal leadership, and of course relevant staff/leadership from the SoS office.

I am also excited about the upcoming meeting with Crownpoint. The goal is to have as much of the internal leg work down at the service unit by the meeting so a possible designation can come soon after.

I hope you all have a great holiday weekend and I look forward to connecting soon.

Best,
Josh

Good evening,

We share your excitement in hearing that the board signed off, and we are moving forward with official designation. The elections team is wrapping up the regular local election, and Charlotte Chinana, cc-ed here, will be in touch with Daniel regarding training and designation timelines once the work of the election canvass has concluded.

Please keep us in the loop on any sort of finalized plans regarding the event commemorating the designation. We would love to be able to participate.

Thank you for sharing that about the Crownpoint potential designation. I am excited to learn more on 12/5.

Best,

Lindsey

Subject: [EXTERNAL] Santa Fe Service Unit, NVRA, and EO 14019

CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments.

Good evening all,

I believe I might have met one or all of you on an earlier virtual meeting regarding E.O. 14019 and the Santa Fe Service Unit. I am excited to hear their governing board has finally signed off and that they are a-go to receive NVRA designation. Daniel Cox tell me they have their business practices all updated and are ready to go to receive training from the state and the designation from the Secretary of State's office.

I am extremely excited to hear about this development—as are many others. Do you happen to have a timeline for a rollout of this? I would love to involve some area leadership as well as senior leadership (including myself) in an event with the Santa Fe Service Unit. And perhaps someone from the SoS office. In October we had such an event with the Arizona SoS when Native Health Phoenix was designated and press was involved—it was picked up by a few national Native outlets.

Additionally, the Navajo Area Office is working on standing up a site in their area—and they have picked Crownpoint Service Unit. Because of the geography of the Navajo Nation, either AZ or NM were going to get two sites, and NM won out. I know that the leadership of the Crownpoint unit has been in contact with you all and have a meeting on 12/5 regarding designation. I have also put them in contact with Santa Fe to start working on the business processes and such now so the 12/5 meeting goes smoothly.

Please let me know if I can be of any assistance in getting both of these sites designated in the near future.

Thanks, Josh. I can wait to reach out to the Secretary until your call with Dr. Thomas and team in case any hiccups arise from that meeting. Then, we can reach out to the Secretary's office. There is no need to wait until August for designation but that does probably mean we should reach out fairly quickly after tomorrow's call. Happy to do so when we get the go ahead.

Thanks!

Hello Jacqueline,

Yes, please do move forward. Dr Thomas and relevant members of his leadership and I are meeting tomorrow to discuss next steps (along with Ty and Bryce). I plan to reach out to you all afterwards about trainings, materials, dates, and connecting with the SOS.

Sequentially, does this August meeting need to happen before designation? If so, could it happen sooner? I'd like to stick as much as possible to at least 1 if not 2 sites designated in July as I committed to the White House. Of course they will understand if I was overzealous.

Josh.

Hi Josh,

Thank you so much for your continued support moving the agencies toward designation. We wanted to do a quick check in regarding the ABQ designation. We were wondering if it is alright if we reached out to Secretary Toulouse-Oliver's office? We'd like to ask for a copy of the designation she executed for the SIPI, let her know about the possibility of designation of the ABQ facility, and potentially broach the subject of a meeting in August. Of course, if you prefer to do that we are happy to defer to you. What do you think?

Hello,

Native Health PHX is working towards designation. They had a call with the AZ SoS office and they were very supportive. I did get this request for examples/more information from the AZ about how to actually designate. I am running into this with a couple other states as well, it seems these might be more rare occurrences than initially thought.

Anything you can provide from other states/AZ-specific would be much appreciated.

Best,
Josh

Subject: RE: EO 14019 - Promoting Access to Voting

Greetings from HHS Region 5 Tribal Consultation in Choctaw Mississippi.

The NAS, PDX, and GPA area offices identified service units and sites that are willing to participate in becoming on NVRA.

Portland: Western Oregon Service Unity (aka Chemawa) in Salem, OR. A federal site.

Nashville area: Native American Lifelines (located in Baltimore and Boston, but preference for Baltimore location). An Urban Indian Organization.

Great Plains Area: Oyate Health Center in Rapid City. Tribally owned and operated site.

I'd like to set up a meeting with the Area Directors and the leadership of the three sites and a subset of this group if anyone is able. Ideally the first two weeks of September. Can you send some times that work on your end?

Thanks,
Josh

Subject: RE: EO 14019 - Promoting Access to Voting

Greetings from Tulalip, WA. Here for the first ever National Tribal Opioid Summit.

Some updates. I meet with NAS, GPA, and PDX area offices Monday and they are going to send me the sites under consideration sometime next week. I'll then work on getting a meeting with the Area Directors, the leadership of the sites selected, and you all for early September.

I am meeting next week with the Navajo Area and Oklahoma City Area directors to start the process with them. They are the last two of the 8 areas that committed earlier in the year. I will have to figure out next steps with the remaining for (Alaska, California, Bemidji, and Tucson areas) soon.

Also, if you have any more examples of designation letters or MOAs to share, please do. People find them helpful.

Best,
Josh

Subject: RE: EO 14019 - Promoting Access to Voting

Hi Josh,

Thanks for following up. Attached is a letter that demonstrates how Kansas effectuated the designation. The process can be as simple or as formal as the state chooses. For example, in Kansas this letter sufficed and we think it's a good example of how to simply and expeditiously move forward with designation.

Alternatively, next week on August 22 we are having a ceremony at the tribally run healthcare facility in Shingle Springs where the California Secretary of State is going to the Rancheria to formally issue a declaration issuing the designation and where the tribe is passing a tribal resolution accepting the designation. Mostly, the point of this August 22 ceremony is to publicize the designation. Here is a link to how California designates – the Secretary issues a declaration: [NVRA Designated Agencies \(ca.gov\)](https://www.ca.gov/nvra-designated-agencies). So following the ceremony, Shingle Springs Health and Wellness center will be added to this Declaration.

Hope that helps. Pleas let me know if you have any questions.

Thanks,
Jacqueline

Subject: EO 14019 and IHS: next three sites

Hello,

Quick update. I notified the Directors of the IHS Great Plains, Nashville, and Portland Area Offices that I want to move forward with designating the next three EO sites in their areas. We will have a call about that next week. I am happy to invite you all to that meeting if you'd like. Although the EO only commits us to five areas, Ms. Tso would like to get all 12 area offices to have at least one site designated this year.

Earlier this week Native Health had a call with the AZ SoS about designation. Also, on Monday the Crow Service Unit had a meeting with Western Native Voice on next steps. Last week

Best,
Josh

Good Morning All,

A Zoom invite has been sent for tomorrow, Thursday, June 22 from 10:30-11:00 AM ET.

If you have any questions or concerns please feel free to contact.

Very Respectfully,
Lexi

Hi Josh and Alexandria,

We are finishing up the materials on our end and hope to get them to you tomorrow. Any chance you are available for the times below? I think what works best for us is this Thursday some time between 10:30 AM and 1PM EST.

Thank you,
Jacqueline

Hello Josh,

Thank you so much for this exciting and excellent update. We are working on pulling together those materials and will have them to you by next Tuesday. We have also internally conferred and can meet between 10:30 AM and 1PM EST on Thursday the 22nd or from 11-12 on Friday the 23rd.

Thank you very much!

Sincerely,
Jacqueline

Hello all,

Greetings from Eureka, California. I am here participating in the field hearings of the Not Invisible Act Commission as the IHS member.

Early this morning I had more regular call with the White House Domestic Policy Council. I committed to stand up the two pilot sites in Billings and ABQ areas by the end of July. Not a hard deadline, but a goal.

So, we should get started on next steps. One immediate one I recall from our call with Dr. Thomas and Mr. Redgrave was getting them some information materials and examples of trainings/information to share with communities as they get ready to talk with tribal leaders.

Also, I'd like to get another quick check in call with us scheduled for next week. I've cc'd Lexi, who will set that up.

Thank you,
Josh

[2022 NCAI IHS Resolution.pdf](#)
[Sample NVRA Training Materials.pdf](#)

Hi Josh,

Looking forward to touching base. Wanted to pass along a collection of materials. These include:

Two Quick One-Pagers:

1. IHS as NVRA Designated Site One Pager
2. Executive Order One Page Explainer

Two Longer Documents Explaining in more depth designation of IHS facilities:

3. Explainer for IHS Voter Registration
4. Summary of NVRA Compliance

Indian Country documents in support of designation of IHS facilities:

5. The 2022 NCAI tribal resolution in support of IHS designation
6. A link to the petition in support of IHS designation with over 8,000 signatures:

<https://actionnetwork.org/forms/support-voter-registration-at-indian-health-service-facilities-now/>

Sample documents related to NVRA designation such as sample forms, checklists, and other training materials that can be adapted to training for IHS:

7. Sample NVRA Training documents

Can't wait to talk through these a bit and next steps.

Thanks,
Jacqueline

NVRA Designation in Indian Country

On March 7, 2021, President Biden issued an [Executive Order on Promoting Access to Voting \(EO\)](#). In the EO, the President specifically named the [unique barriers to voting faced by Native people](#) and directed federal agencies to do what they can to address these barriers, including accept designation under the National Voter Registration Act (NVRA) where possible. This EO could transform voter registration in Indian Country by implementing voter registration at places that explicitly serve Native people.

Under the EO, the Department of the Interior, the Department of Veterans Affairs, and Indian Health Service undertook projects to designate facilities under the NVRA. Being designated means these entities would be required to provide high-quality voter registration services to the Native people they serve. This would look similar to the voter registration opportunities provided for decades at DMVs, Medicaid offices, and other state agencies, which are effective, but which often miss Native voters.

Department of Interior (DOI)

DOI was the first agency to designate facilities and is a leader in the implementation of this EO. DOI accepted designations of the two tribal colleges that it operates, Haskell Indian Nations University in Kansas and Southwestern Indian Polytechnic Institute in New Mexico. Both institutions are in the implementation stage and will soon be providing voter registration opportunities to the students and communities they serve.

Department of Veterans Affairs (VA)

The VA is in the process of accepting designations of three VA health facilities in Kentucky, Michigan, and Pennsylvania. Once designated, these facilities will provide voter registration opportunities to its clients without interrupting the provision of care or compromising patient confidentiality.

Indian Health Services (IHS)

President Biden [committed](#) to designating five IHS voter registration pilot sites by the end of 2023. IHS is in the process of selecting the five sites.

What is NVRA Designation?

Under the National Voter Registration Act of 1993 (NVRA) states can designate state and federal government agencies as non-partisan voter registration agencies. For example, the Department of Motor Vehicles (DMV) is a commonly known NVRA designated agency in most states and is where many Americans register to vote for the first time.

What do designated facilities have to do?

1. Distribute voter registration application forms to customers (typically during intake).
2. Assist customers with completing the voter registration application form.
3. Transmit any completed voter registration forms to the appropriate election officials.

Why IHS?

IHS and tribally administered health programs serve approximately 2.6 million American Indians and Alaska Native people each year, many of whom are not registered to vote. Over a third (34%) of voting age Native Americans are not registered to vote – approximately 1.2 million Native Americans.

Civic engagement is a proven contributor to the social determinants of public health. Voter registration services are well within IHS' mission to increase the wellbeing of Native Americans. Voter registration already occurs in other health care contexts like Medicaid.

Additionally, Native Americans face unique obstacles to registration:

- County registration sites, DMVs, and public assistance agencies (that many Natives may not even use due to receiving treaty benefits) can be over 30 miles away.
- Homes on reservations often do not receive residential mail delivery and homes often do not have addresses on them. This makes receiving a registration form and filling it out correctly more difficult.
- In some states, registrations from Native Americans are rejected at disproportionately high rates.

Given these challenges, unregistered Native Americans would benefit from the convenience of voter registration alongside their routine visits to trusted IHS and tribal facilities. President Biden has committed to 5 voter registration pilots at IHS facilities by the end of 2023.

Helpful Examples from State NVRA Practices

	Document Description
	Colorado Voter Preference Form
	Training guidance document that the California Secretary of State has provided to agency staff to ensure familiarity with required voter registrations services during Covered Transactions
	Checklist used by staff at mandatory Section 7 voter registration agencies in Oklahoma, such as the Department of Human Services, when providing clients with assistance to ensure that voter registration application forms are complete

Colorado

Voter Preference Form

Agency-Based Voter Registration

Please read the following information and complete and sign the declination form below. This agency will detach and keep the declination form for its records.

Information about agency-based voter registration

Must I fill out this application?

No, it is your choice.

How do I turn in the application?

You may

- leave it with us and we will turn it in for you
- mail or deliver it to your county clerk and recorder's office

Does filling out or not filling out the registration form affect services I am applying for?

No. Applying to register or declining to register to vote will not affect the amount of assistance that you will be provided by this agency.

How private is this process?

The name and location of the agency or public office where you received the voter registration application will not appear on your records. If you decide not to use this application to register to vote, that is also confidential.

Am I eligible to register to vote?

You are eligible to vote if you:

- will be 18 years of age or older at the time of the next election
- are a United States citizen
- are a Colorado resident and have lived in your current precinct for at least 30 days before the election
- are not serving a sentence (including parole) for a felony conviction

Important Notice:

If you believe that someone has interfered with

- your right to register or to decline to register to vote,
- your right to privacy in deciding whether to register or in applying to register to vote, or
- your right to choose your own political party or other political preference,

You may file a complaint with:

Colorado Secretary of State
1700 Broadway
Denver, CO 80290
Phone: (303) 894-2200

Declination form (Accept or decline this opportunity to register to vote)

If you are not registered to vote where you live now, would you like to apply to register to vote here today?

Please check only one of the following boxes and sign below. *If you do not check any box, you will be considered to have decided not to register to vote at this time.*

- Yes, I want to apply to register to vote today. (Please fill out the Voter Registration Form)
- Yes, I am currently registered to vote and want to change my address, political party, or other information on my voter registration.
- No, I do not want to apply to register to vote today.
- No, I am currently registered to vote and do not want to update my information.

If you would like help in filling out the voter registration application form, we will help you. The decision whether to seek or accept help is yours. You may fill out the voter registration form in private.

Print your full name _____

Sign here _____

Today's date _____

For agency use only

The applicant completed a voter registration form. Yes No

The applicant requested and was given a voter registration form for later delivery. Yes No

Information about registering to vote

If I don't know my Colorado driver's license or Colorado ID card number may I provide my Social Security Number instead?

No. If you have a Colorado driver's license or ID card issued by the Colorado Department of Revenue, you must provide that number for your application to be complete.

How will I know if my registration was processed?

You will receive an official information card from your county clerk and recorder's office approximately 20 days after they receive your registration form.

You may also check your status at the Colorado Secretary of State website by visiting www.sos.state.co.us, clicking on the "verify/update my voter registration" link.

When is the last day to register to vote?

29 days before an election.

Other frequently asked questions

Will I need identification to vote?

If you vote in person, yes. If you are voting by mail for the first time, you may need to provide a photocopy of your ID.

What is mail-in voting?

If you choose not to go to the polls on Election Day, you may apply to vote by mail-in ballot.

What is permanent mail-in voting?

If you choose to be placed on the list of Permanent Mail-in Voters, you will receive a mail-in ballot for every applicable election.

What is the deadline for requesting a mail-in ballot?

Your county clerk and recorder must receive your application no later than the close of business on the 7th day before the election. If you mail your application, make sure to allow time for delivery. If you want to pick up your mail-in ballot, you may pick it up at your county clerk's office no later than the Friday before the election.

May I register to vote if I was arrested for or convicted of a crime?

Yes, if you

- are on probation for either a misdemeanor or felony
- are a pretrial detainee awaiting trial
- are currently in jail serving a misdemeanor sentence only
- have served your sentence for a felony conviction, including any period of parole

Once you have served your complete sentence, you are automatically eligible to register to vote. If you were previously registered, that registration will have been canceled and you must re-register if you wish to vote.

California

**Training guidance document that the
California Secretary of State provides to
state agency staff**

BASICS FOR DESIGNATED VOTER REGISTRATION AGENCIES

The National Voter Registration Act (NVRA) is a federal law requiring designated agencies to provide “voter registration services.” This handout provides general information and guidance about this law to agency staff.

Requirements

The NVRA requires agency staff to provide “voter registration services” every time a client:

- Applies for benefits or services,
- Renews or recertifies benefits or services, or
- Requests a change of address

What does “voter registration services” mean?

- Provide the Voter Preference Form. The Voter Preference Form asks clients if they would like to register to vote and makes clear that their benefits and services will not be affected by their answer. Completed Voter Preference Forms must remain on file in your office for two years.
- Provide the Voter Registration Card (VRC). Instructions for completing a VRC can be found on page 2.
- Help the client register to vote, unless the client declines to register. Provide the same level of assistance you would provide with your agency’s own forms.
- Accept completed VRCs and forward them to the county elections office. VRCs are pre-addressed and postage paid and should be forwarded daily.

Reminders

- Offer voter registration for all required transactions whether they occur in person or by mail, phone, or online.
- For clients between the ages of 16 and 17, you may offer them a VRC to fill out in order to pre-register to vote.
- When the client is a minor (under 16), provide voter registration to the adult applying on behalf of the child.
- The federal Voting Rights Act requires election materials to be available in Spanish and English in all California counties. Check with your county elections office on additional languages that may be required.
- Do not screen applicants for eligibility to vote or discourage voter registration. County elections officials carefully verify eligibility before a voter is placed on the rolls.
- Encourage applicants to register, but do **not, in any way**, discuss or influence their political party preference.

Additional Information

- People with disabilities may initially decline to register to vote because they are unsure about how they may cast a ballot on Election Day. In California, each polling place has at least one accessible voting machine. Voters also have the option of voting by mail. Counties have remote accessible vote-by-mail (RAVBM) systems allowing voters with disabilities to receive their ballots at home and mark them independently and privately before sending them back to elections officials.
- People do not need to be able to read, write, or speak English in order to register to vote.
- People may not remember if they are registered to vote and can visit www.voterstatus.sos.ca.gov to check their status. When in doubt, a voter can re-register! There is no penalty for re-registering.

For additional information, please visit: <http://www.sos.ca.gov/elections/voter-registration/nvra/training/>.

BASICS FOR COMPLETING VOTER REGISTRATION CARDS (VRCs)

Item 1: Voter declaration. The applicant must mark “yes” or “no” to the question of whether or not they are a United States citizen and if they will be 18 years old on or before Election Day. To pre-register to vote in California, the applicant must mark the box indicating that they are 16 or 17 years old and otherwise meet the eligibility requirements to vote.

Item 2: First name, middle name (or initial), last name, suffix (optional), and title (optional).

- Should match CA driver license (CDL)/CA identification card (ID Card).

Item 3: Date of birth and CA driver license/ID card number or last four of Social Security Number.

- Date of birth and U.S. state or foreign country (not county) of birth.
- If the applicant has been issued a CA driver license or an identification card, they MUST list the number.
- If the applicant does not have either, they MUST list the last 4 digits of their Social Security Number.
- If the applicant does not have any of the above, they can still register to vote. Just leave the field blank.

Item 4: Home address, city, zip code, and county name. This should be their “Residential” address.

- Residence: Place in which the applicant’s habitation is fixed and where the intention is to stay. For voting purposes, a person can have only ONE residence.
- P.O. Boxes & business addresses are NOT valid here.
- If the applicant does not have a street address, they should enter an exact description of where they live.
 - Cross streets, route, box, bridges, or other landmarks can be used.
 - Mostly used for applicants living in rural areas with non-specific street addresses. Also used for applicants who are homeless.

Item 5: Mailing address. The applicant must complete this section if they want to receive election mail at an address other than their residence. This can be a P.O. Box or business address.

Item 6: The applicant should complete this section if they were previously registered and changed their address, surname, or political party preference. If the applicant cannot recall their previous address, it can be left blank.

Item 7: To become a permanent vote-by-mail voter, the applicant must check the box marked “yes.” This can be left blank if the applicant wants to vote at a polling location.

Item 8: Political party preference. Mark box to choose any of the political parties listed. If the applicant does not want to choose a political party preference, mark the “No Party/None” box.

- There can be only ONE mark in Item 8 with NO CORRECTIONS or ALTERATIONS. A new VRC must be filled out if an error is made.

Item 9: Optional Information

- E-mail address and phone number. These are optional but recommended.
- To receive state materials in another language, mark the language preference box. If no box is checked, voter materials will be provided in English.

Item 10: This item MUST contain the signature/mark/signature stamp of the applicant. Please also include the date of signing.

Blue Box: Complete this box if you filled out (put pen to paper) some or all of the VRC on behalf of the applicant. If you only answered questions or checked if the VRC was complete, do not complete the box.

Oklahoma

**Checklist from Oklahoma Department of
Human Services to guide staff when
providing clients with voter registration
assistance**

VOTER REGISTRATION APPLICATION CHECKLIST

Use this checklist to review a filled out voter registration application. If items marked below with an asterisk (*) appear to be missing, tell the applicant that the missing information may delay or prevent approval of the voter registration application. Accept the completed form and send it to the State Election Board whether or not the applicant adds the missing information. Election officials will determine whether the application is valid.

Section 1 – * Name

Verify that name is complete and legible.

Section 2 – * Birth Date

A person's date of birth must be listed.

- Verify that the year listed is not the current year.

Section 3 – * Identification Number

Verify that voter has provided one of the following:

- Oklahoma driver license number or state identification card number is required.
- Last four digits of the Social Security number is required if the voter does not have an Oklahoma driver license.
- Checkmark in the box only if the voter does not have an Oklahoma driver license or a Social Security number.

Section 4 – Political Party

See instructions on application for more information.

- Make sure ONE box is checked.
- Do not influence the person's choice.

Section 5 – * Street address or directions to your home

Complete street address, including

- number
- street name
- type (Street, Drive, Avenue, etc.)

OR

Legal description of homestead property

- Section-Township-Range

OR

Directions to residence, including

- a specific starting point. An intersection of highways or a known landmark is a good starting point. The name of a town is **NOT** a good starting point.
- exact mileage
- side of road

See Section 5 instructions on application form for an example.

OR

A detailed map, including specific starting point, mileage, and side of road drawn in the area provided.

A Post Office Box number is not an acceptable address in Section 5. A Rural Route and Box number may not be an acceptable address in Section 5.

Section 6 – Mailing Address

* If a legal description, directions, or a map is given in Section 5, a mailing address **must** be listed here.

Section 7 – County of Residence

Applicant has written county in which he/she resides.

Section 8 – Have you been registered to vote before?

If "yes," details about the former registration should be given.

See instructions on application form for more information.

Section 9 – * Oath.

The two questions printed above the Oath are answered.

* **The application must be signed and dated.**

North Carolina

**Information sheet used by the North Carolina
Department of Health and Human Services
when discussing voter registration with clients
during Covered Transactions**

NVRA
Statement

Voter registration agencies are required to provide the opportunity to register to vote at the initial application for service or assistance and during recertification, renewal, or change of address. 52 U.S.C. § 20506(a)(6)(B) requires the information below be provided to you.

2
Voter
Registration
Question

If you are not registered to vote where you live now, would you like to apply to register to vote here today?

Please select one of the options below:

YES

NO

IF YOU DO NOT CHECK EITHER BOX, YOU WILL BE CONSIDERED TO HAVE DECIDED NOT TO REGISTER TO VOTE AT THIS TIME.

(Your selection will be recorded by the Caseworker in the NC FAST System)

3
Assistance

Applying to register or declining to register to vote will not affect the amount of assistance that you will be provided by this agency.

If you would like help in filling out the voter registration application form, we will help you. The decision whether to seek or accept help is yours. You may fill out the application form in private.

4
Your Rights

If you believe that someone has interfered with your right to register or to decline to register to vote, your right to privacy in deciding whether to register or in applying to register to vote, or your right to choose your own political party or other political preference, you may file a complaint with the NC State Board of Elections, P.O. Box 27255, Raleigh, NC 27611-7255 or you may call the agency at 1-866-522-4723.

Most Important Elements of Program to Provide Voter Registration Services

There are three important steps when an agency, like IHS, is providing voter registration services to their clients:

- I. distribute voter registration application forms to their clients;
- II. assist clients with completing the voter registration application form; and
- III. transmit any completed voter registration forms to the appropriate election officials.

I. Distribution:

- All clients should be provided voter registration services each time they complete a transaction with the agency that involves an initial application or request for services or benefits, a renewal of benefits or services, or reports a change of address.
 - The NVRA does not require that designated federal agencies, like IHS facilities, ask clients a voter registration question, but the practices from state voter registration agencies of asking a yes/no question about whether the client wants to register to vote and providing explanatory materials about voter registration provide good models for how federal agencies can determine if clients do or do not want to register to vote.
- The most helpful points from the NVRA that designated federal agencies, like IHS facilities, could provide clients as part of the explanatory materials are:
 - Applying to register or declining to register to vote will not affect the amount of assistance that a client will receive from the agency, and their answer to any voter registration question will be kept confidential;
 - The agency will provide assistance in filling out the voter registration application form, if the client so chooses; and
 - No one should interfere with a client's right to register or to decline to register to vote, their right to privacy in deciding whether to register or in applying to register to vote, or their right to choose their own political party or other political preference.
- For IHS, the intake or check-in process is an excellent place to offer patients voter registration services. Patients can be asked whether they are registered to vote at their current address, and if not if they want to register to vote as part of the intake process.
 - If the intake process happens in person at the IHS facility, the staff member conducting this intake can ask the voter registration question after collecting the other relevant information. If the patient is interested, staff can then provide a voter registration form and offer to provide assistance filling out the form, if the patient desires it.
 - If the facility needs to move patients through intake quickly, this staff person could also send the patient to a separate designated staff member for help filling out the form and move on to intake for the next patient.
 - If intake happens over the phone before the visit, the IHS staff person making the call can ask the voter registration question and let the patient know someone will be available to offer assistance filling out the voter registration form when they come in for their appointment.

- If patients complete the intake process online before their visit, a question about voter registration and a note that someone will be available to offer assistance filling out the voter registration form when they come in for their appointment can be added to the application process.
- For existing patients, a similar process can be utilized during the check-in process. As the IHS staff member checks to ensure the patient's insurance is up to date, they can also ask if they have moved, changed their name, or otherwise may need to update their voter registration, or if they're not registered to vote already, if they want to register for the first time.

II. Provide Assistance to Clients Completing Voter Registration Applications:

- In addition to distributing voter registration applications, the agencies must provide assistance to clients in completing their voter registration application. See the below points about the training that can and should be provided to help staff render this assistance.
- Assistance should include:
 - affirmatively asking all clients if they want help with their voter registration application;
 - offering assistance with the voter registration form, similar to any assistance the agencies already provide to clients in completing the forms clients use to receive agency services; and
 - ensuring that clients have completed and signed their voter registration application.
 - Verifying that voter registration application forms are complete does not require any special expertise as it involves only a few simple checks.

III. Collection/Transmission:

- When an agency collects complete voter registration applications, the application forms must be transmitted to state election officials in a timely way.
 - The NVRA requires that all voter registration applications be submitted to state election officials no more than 10 days after the date the agency accepts the application. This time is shortened when a registration application is collected within 5 days before the last day for registration to vote in an election. In that case, the application must be transmitted to the appropriate State election official no later than 5 days after the date of acceptance.
- During in-person transactions, agency officials of designated federal agencies, like IHS facilities, should establish a system to collect the forms and deliver them to the appropriate state or local election officials. Most state voter registration agencies create a central location in the office to deposit the completed forms and then task a specific member of the agency staff to either hand deliver or mail all the completed forms to relevant election officials once a week, with more frequent delivery closer to voter registration deadlines before federal elections. The current names and addresses of the relevant state election officials are usually printed on the state voter registration applications and are included for all states with the instructions for the National Mail Voter Registration Form ("NMVRF").

Training:

- Training agency staff to carry out their responsibilities in assisting clients with voter registration is an important component in effective implementation. Training staff to follow these simple procedures, and to answer applicants' voter registration questions, can be accomplished in about 30 minutes, and thus is not a significant burden.
 - Most state voter registration agencies provide training once a year to all of their agency employees who provide voter registrations services, and as a part of the on-boarding training for all new employees.

- Trainings for staff engaged in voter registration with patients should include:
 - At a conceptual level, the link between physical and mental health and civic engagement, especially voting; the importance of ensuring all eligible people have access to registration and voting; the significant and persistent registration gaps faced by American Indian and Alaska Native communities; and the role IHS can play in removing barriers to democratic participation.
 - General information about who is eligible to register to vote in the state, including that an individual must be a U.S. citizen to vote.
 - Note that IHS staff themselves are not responsible for determining eligibility nor liable if an ineligible person registers to vote. Election officials themselves are responsible for reviewing voter registration applications and verifying eligibility.
 - How to ask a question about voter registration in the healthcare context, i.e., when patients are focused on the purpose of their health appointment.
 - The specific processes an IHS facility has developed for:
 - Asking the voter registration question;
 - Distributing voter registration applications to interested patients;
 - Offering assistance in completing the application to interested patients;
 - Collecting and storing completed applications, as applicable; and
 - Transmitting it to elections officials, as applicable.
 - Description of the fields in the voter registration application, including which fields are required for the registration to be complete and accepted, and what information should be supplied for each required field.
 - Answers to commonly asked questions about filling out the voter registration application and about voting.
 - Information on how clients can contact state or local election officials if they have additional questions about voter registration or voting.¹

¹ Contact information is maintained by the General Services Agency on USA.gov, <https://www.usa.gov/election-office>.

- If clients have any questions about their eligibility to vote other than questions about the age requirements and being a U.S. citizen, staff can refer them to state or local election officials for assistance, and allow the client to take the voter registration form with them for completion once their question is resolved.
 - How to ensure that the voter registration application is completely filled out and legible, before accepting and transmitting the application to the appropriate election official.
 - The importance of making clear to patients that voter registration is voluntary—they are not required to register to vote to obtain services.
 - The strict prohibition on partisanship and the strict rules around confidentiality.
- It is important to ensure that all voter registration services provided to clients are **non-partisan**. Any person who provides voter registration assistance should be trained that they should not:
 - seek to influence an applicant’s political preference or party registration;
 - display any such political preference or party allegiance;
 - make any statement to an applicant or take any action with the purpose or effect of discouraging the applicant from registering to vote; or
 - make any statement to an applicant or take any action with the purpose or effect of leading an applicant to believe that a decision to register or not to register has any bearing on the availability of services or benefits.

Other helpful points:

Appoint a Voter Registration Coordinator:

One of the primary ways to ensure effective voter registration at IHS facilities is to appoint a “voter registration coordinator” within each facility, whose responsibility it is to ensure high-quality voter registration services are provided to all eligible patients. This need not be a full-time position; voter registration oversight can likely be added to the duties of a staff member who is already playing a supervisory or oversight role within an IHS facility. Having an appointed voter registration coordinator can make the difference between effective voter registration efforts—i.e., registration that is convenient, efficient for the facility, and simple for patients to navigate and, as a result, maximizes the number of Native American voters added to the registration rolls—and ineffective efforts.

- The voter registration coordinator should have additional training, beyond the annual training for other staff involved in offering voter registration services, and their duties should include:
 - Ensuring adequate training for all agency staff engaged in providing voter registration services, via an initial training at the point of hire and an annual refresher training like that described above.
 - Being responsible for maintaining voter registration supplies (such as blank voter

registration applications).

- Ensuring voter registration services are being offered during relevant transactions and providing quality control of those services.
- Setting up and monitoring a system for delivering completed applications to election officials, as applicable.
- Collecting and making publicly available data on the number of people submitting registration applications through the program or agency.

Paper Voter Registration Application Supply:

- Agencies can easily obtain blank forms from state election officials. Most states have a PDF of the state voter registration form on the chief election official's website that can be downloaded and printed. Here are the links for the voter registration forms for Montana and New Mexico found on their SOS's websites:

<https://portal.sos.state.nm.us/ovr/VRForms/VRFormEnglishFinal.pdf>

https://sosmt.gov/wp-content/uploads/Montana_Voter_Registration_Application.pdf

- State election officials may also be willing to directly provide hard copies of the state voter registrations forms to any IHS facility that requests them, as they currently do with state voter registration agencies.
- Additionally, facilities could also distribute the National Mail Voter Registration Form, which is accepted by almost every state that requires voter registration. That form can be found on the Election Assistance Commission's website at https://www.eac.gov/sites/default/files/eac_assets/1/6/Federal_Voter_Registration_ENG.pdf.

Tracking and Reporting:

- Ideally, any IHS facility that is providing voter registration services would also track data related to this work, including at a minimum the number of completed voter registration forms collected from clients and transmitted to election officials. This data should be shared with state election officials, IHS officials and hopefully also tribal officials.
- Some state voter registration agencies simply do a weekly hand tally of how many voter registration applications they collect and provide to election officials. Any designated IHS facility could also use such a tally system.

WHEREAS, we, the members of the National Congress of American Indians of the United States, invoking the divine blessing of the Creator upon our efforts and purposes, in order to preserve for ourselves and our descendants the inherent sovereign rights of our Indian nations, rights secured under Indian treaties and agreements with the United States, and all other rights and benefits to which we are entitled under the laws and Constitution of the United States and the United Nations Declaration on the Rights of Indigenous Peoples, to enlighten the public toward a better understanding of the Indian people, to preserve Indian cultural values, and otherwise promote the health, safety and welfare of the Indian people, do hereby establish and submit the following resolution; and

WHEREAS, the National Congress of American Indians (NCAI) was established in 1944 and is the oldest and largest national organization of American Indian and Alaska Native tribal governments; and

WHEREAS, over 30 percent of eligible Native American voters remain unregistered to vote in federal and state elections; and

WHEREAS, many Native Americans do not have regular access to county seats and other state registration services due to geographic distances, lack of access to transportation, and poor roads; and

WHEREAS, many Native Americans do not have access to other National Voter Registration Act (NVRA) designated sites such as state motor vehicle agencies, likewise due to geographic isolation, lack of access to transportation, and poor roads; and

WHEREAS, many Native Americans do not have access to NVRA designated sites such as state public assistance agencies because at times public assistance is provided through federal programs in fulfillment of treaty obligations; and

WHEREAS, the Indian Health Service (IHS) providers interact regularly with eligible unregistered Native American voters; and

WHEREAS, other health service providers such as Medicaid have provided registration services to eligible voters; and

WHEREAS, NVRA designation means a provider will provide a meaningful registration opportunity to an eligible voter in coordination with Secretary of States who will process received applications.

NOW THEREFORE BE IT RESOLVED, that the National Congress of American Indians (NCAI) urges IHS providers to become NVRA designated sites that provide registration opportunities to eligible Native Americans and encourages Tribal Nations that compact IHS responsibilities to likewise become NVRA designated sites; and

BE IT FINALLY RESOLVED, that this resolution shall be the policy of NCAI until it is withdrawn or modified by subsequent resolution.

CERTIFICATION

The foregoing resolution was adopted by the General Assembly at the Mid Year Conference of the National Congress of American Indians, held in Anchorage, Alaska from June 12-16, 2022 with a quorum present.

Fawn Sharp, President

All,

More good news on a Friday. Daniel Cox, CEO of the Santa Fe Service Unit, just informed me that their governing board has signed off on NVRA designation. As I mentioned before, because of SFSU's unique nature, they had to work individually with each of the nine Pueblos to get sign off. That occurred this week. The Secretary of State has the designation ready to be issued and should be

signed in short order.

I will follow up with more details as I get them regarding possible event/ceremony/press.

Best,
Josh

Hi Joshuah,

Thank you for your email. We are getting closer to being having the NVRA Designation. I just received the NVRA contract a few minutes ago and our Compliance Director is reviewing it. I am hopeful this will be in place for the Open House. We're moving ahead as if this will be in place.

I hope to have more info in the next day or two.

Talk to you soon.

Hello Susan,

Hope you are doing well. I am sure you were following the news over the weekend, so we are in a different space today than I think a lot of us thought we would be on Friday re: government funding.

I know you have your Native Health Open House and you do a lot of voter registration/engagement then. And there was talk about possible having some sort of declaration—or hopefully NVRA designation—at the event. Do you have any updates on that? If the NVRA part is a go, I would love to attend and invite Dr. Reidhead. I will need to make travel plans soon if that is the case.

Best,
Josh

Hi All,

Very last minute, but would any of you want to join the call I am having with the Area Directors and leadership of the sites for the next group of candidates for designation? I find someone from this group is able to better answer some of the technical questions. It is tomorrow from 3:30pm to 4pm EDT. We can try to reschedule for earlier next week if that doesn't work.

Great Plains Area and Oyate Health Care (SD)
Nashville Area and Native Lifelines (MD)

Portland Area and Western Oregon Service Unit (OR)
Navajo Area and either Chinle Service Unit (AZ) or Gallup Indian Medical Center (NM)
Oklahoma City Area and Wewoka Indian Health Center (OK).

Thanks

Josh.

Including the correct Ashley. I included another one working on the Crow Service Unit—too busy multitasking while at the STAC meeting.

I hope you all had a great holiday and holiday weekend.

Just sharing that the Great Plains Area will also look at potential other sites in Iowa and Nebraska due to some concerns over feasibility in South Dakota. Did the leads for Oyate Health in Rapid City reach out yet?

Of IA or NE unsure if you have ideas or leads, but wanted to send your way.

Also, RADM Watts is going to explore options in Kansas since the OK Election Board is somewhat stonewalling. But you did mention you were researching other avenues/points of contact. Any news on that front?

Thanks,
Josh

Subject: NVRA and Great Plains Area

Hey Joe,

Great to see you this week. And thank you for being a pinch-hitter for Dan for the game show Thursday.

I wanted to quickly touch base on the voting EO. Ms. Church identified the leads for Oyate Health around this area of work and they have been in contact with NARF and other nonprofit partners.

However, they did flag they are worried about South Dakota in terms of the leadership of the state and the political context. We will still press ahead, but wanted to see if you could identify sites in Nebraska and Iowa that could be candidates? Unfortunately, ND is not eligible for NVRA as they were exempted in the act (as well as DC and four other states).

Please let me know by Tuesday next week.

Thanks,
Josh

Hi everyone,

I removed the SBE staff member from the thread so we can coordinate on the memo. Kerry, if it's helpful, I'm happy to take a first pass at drafting and we can send to you to finalize and add in Native Lifelines specific information on funding, population served etc. Overall, that seemed promising, glad we got them to a spot where they were interested in pursuing a designation.

Ms. Lessard,

Thank you for your email. We are happy to hear that you would like to start integrating the voter registration process into your intake procedures. Agencies that are part of the NVRA were included in Federal legislation and an amendment to that would have to include your agency.

If you would like to integrate to just make a trackable way to get statistics about people who have utilized this process, we can provide a unique link to your agency to access our online voter registration system which would allow us to provide you with monthly statistics. If you would like to be more integrated like MVA and the Maryland Health Benefits Exchange, this would require approval of our Board and subsequent significant hours of development time behind the scenes which may be difficult just before the 2024 election cycle kicks into full gear. Further, Maryland is an automatic registration state and certain agencies are built into the Maryland law regarding who is required to participate in that program. It could be something to look into further.

I am happy to continue this conversation and work through the best course of action as we welcome new partnerships with voter outreach and registration efforts.

Hi everyone,

I removed the SBE staff member from the thread so we can coordinate on the memo. Kerry, if it's helpful, I'm happy to take a first pass at drafting and we can send to you to finalize and add in Native Lifelines specific information on funding, population served etc. Overall, that seemed promising, glad we got them to a spot where they were interested in pursuing a designation.

Ashley (and everyone), thank you. That would be helpful. I can also provide information on our census and budget since that seemed important to them.

I admit I was a bit surprised by the suggestion that our small population size renders us less important. Also, I can give you additional information on our community that may or may not be helpful.

I finished my tenure on the Maryland Commission on Indian Affairs in December and have good relationships with the Director and Chair, who is the only Commissioner to roll over in the new administration. We could likely have a champion in State Senator Johnny Salling, who is Lumbee and a former BOD Member of NAL.

I hope that they do see how NVRA designation could help engage a population that often feels forgotten.

Hi Josh,

Thanks so much for continuing to push these various agencies. Regarding AK, I do not believe the AK health centers are designated and I am unaware if they are providing registration services (though they might be). Here is a list of designated agencies in AK: <https://casetext.com/statute/alaska-statutes/title-15-elections/chapter-1507-registration-of-voters/section-1507055-effective-until-112024-voter-registration-agencies> It would be welcome news if they are providing registration and if so, perhaps we can push them to seek voluntary designation.

Second, Shingle Springs was designated! As a tribally run health facility, I'm not sure I would count this as an IHS led designated site. I think we were holding them a bit separate in our mind since the tribe initiated the designation process. But open to feedback on that and happy to discuss. They were certainly inspired by the EO to begin the process, although we do think that the ability to seek designation exists for tribally run healthcare centers even absent the EO.

Finally, I wanted to put on your radar that there are facilities in Wisconsin that are working on offering registration though they will not be seeking NVRA designation because Wisconsin does not have NVRA since it has same day registration.

If you think it's a good time, perhaps we have a call to check in next week so we can get a sense of where all of the different parts are moving? Seems like there are a lot of agencies taking good steps and perhaps we can be additionally helpful?

Thanks, Josh!
Jacqueline

Subject: Outreach requests/status for additional sites

Hello,

I am currently in Billings for the quarterly IHS executive leadership meeting. Since I am with all the area directors in person I've been checking in with them about their selected sites for some updates on progress. I wanted to circle back with you all about a few things.

First, the VP tweeted about Native Health! Attached a screen shot. [Here is the tweet](#) (or X whatever it is called). Also, some local press coverage [here](#) and [here](#) and the AZ SoS [press](#) release.

Next, I am still waiting on the remaining pueblo representatives on the governing board for the Santa Fe Service Unit. Dr. Thomas, ALB area director, still says it will happen; just slow moving working with the pueblos.

Byrce Redgrave (Billings area director) Crow Service Unit had a productive meeting with the Secretary of State and Western Native Voice last week. Waiting on a debrief from the service unity leadership Friday.

So, fingers crossed these two come online.

Last week, or the week before (time is fluid lately) we had a follow up call with some of the areas working to designate sites. I wanted to check in if any one of them reached out to you for help on identifying appropriate election officials and what an outreach email could look like? If they haven't reached out to you I can ping them.

They are:

- Native Life Lines in Baltimore
- Oyate Health in Rapid City, SD
- Crown Point Service Unit in New Mexico
- Western Oregon Service Unit in Salem, OR

Also, I had a call with the California and Alaska area offices. The California director was curious about the Shingle Spring Rancheria and if their health center received designation? If so, that would

be a tribally run health care facility and thus would help fulfill a requirement (of course we can also stand up another one in California). The Alaska area director was curious if there is a way to find out if there are already NVRA voluntary designations in Alaska. She believes that some of the Alaska Native villages, corporations, or regional corporations (all of Alaska is Title V) might have received such a designation years ago.

Thanks,
Josh

Hi all,

Just wanted to flag that I'm back from my time off. Excited to see all the progress that was made while I was OOO, will continue to catch back up on what I missed. Not sure if I missed the check in meeting, but please include me if it's yet to be scheduled.

Thanks!

Hello Jaqueline,

Thanks for the response. And thank you all for your help on this! I am just trying to keep all things moving so we hit (and exceed) the EO goals.

That is useful to know about Alaska. I think we can move quickly on getting ANTHC stood up perhaps.

Regarding Shingle Springs, although it is a tribally run facility I'd argue it is in the IHS family since it is a 638 tribe and they have taken their tribal shares from IHS. And IHS still has inherently federal functions as regards 638 tribal health facilities. Indeed 65% of IHS goes to ISDEAA tribes, so important—at least for this endeavor—to think of them as one. Worthwhile to chat about

That is nice to know about WI.

Yes, we should get a call scheduled for early next week. I have added Jerel to help with scheduling.

Best
Josh

Hi Josh,

Hope you had a restful time off! Do you have any time after 2 pm ET on Tuesday next week?

Hello,

I was on annual leave the last couple weeks and was abroad so had no access to my government IT hardware or systems. Currently, I am at the quarterly meeting of IHS executive leadership in PHX. I can perhaps do something on Friday of this week or earlier next week.

Josh

Subject: Crow Service Unit and Montana SoS
Date: Monday, October 30, 2023 11:11:00 AM
Attachments: [image001.png](#)

Hello Ta'jin and Jaqueline and Ashley,

I was in Billings last week for the quarterly IHS executive leadership meeting. Unfortunately, I was unable to meet up with Ta'jin in person. But I was able to connect with him when I got back to DC Friday to discuss. I just wanted to loop you in quickly.

The Crow Service Unit leadership and team as well as Western Native Voice met with the Secretary of State's office last week (or the week before). I was unable to join the call unfortunately. It seems the SoS office is willing to work with Crow, but is unfamiliar with how to go about doing that—the process, requirements, etc. They left the meeting with the SoS to go back, do research, and have a follow up call in the coming weeks.

I told Ta'jin that this is something we are running into with several other states regarding voluntary designation. Although I am no expert on Montana state law, I told him I assume that it works like others and that it is a simple process of the CSU integrating certain business practices to comply with the NVRA law and state law, some training, and then the SoS issuing a letter, declaration, or in some cases an MOU.

Ta'jin will send an email to the group this week about next steps, and I suggested he include me on the email and I can reply with relevant information about the process and examples. I wanted to see if I can offer they connect with you and/or others from the team to provide more answers/assistance?

On the service unit side, I am going to tell them to start moving forward with the business process and possible training and to prioritize this work this month so we can reach designation as soon as possible.

Ta'jin, anything else you'd like to add?

Best,
Josh

Subject: EO 14019 and IHS: next three sites
Date: Friday, August 4, 2023 1:34:00 PM

Hello,

Quick update. I notified the Directors of the IHS Great Plains, Nashville, and Portland Area Offices that I want to move forward with designating the next three EO sites in their areas. We will have a call about that next week. I am happy to invite you all to that meeting if you'd like. Although the EO only commits us to five areas, Ms. Tso would like to get all 12 area offices to have at least one site designated this year.

Earlier this week Native Health had a call with the AZ SoS about designation. Also, on Monday the Crow Service Unit had a meeting with Western Native Voice on next steps. Last week

Best,
Josh

Hello all,

Greetings from Eureka, California. I am here participating in the field hearings of the Not Invisible Act Commission as the IHS member.

Early this morning I had more regular call with the White House Domestic Policy Council. I committed to stand up the two pilot sites in Billings and ABQ areas by the end of July. Not a hard deadline, but a goal.

So, we should get started on next steps. One immediate one I recall from our call with Dr. Thomas and Mr. Redgrave was getting them some information materials and examples of trainings/information to share with communities as they get ready to talk with tribal leaders.

Also, I'd like to get another quick check in call with us scheduled for next week. I've cc'd Lexi, who will set that up.

Thank you,
Josh

Good afternoon/morning,

I hope the end of the year was joyful and you stated 2024 refreshed.

I wanted to circle back to this and see if there are any new developments and timeline update.

As I recall, there was an initially timeframe of March/April. I believe that was to develop training and materials. I am unsure if you are aware, but in addition to HHS/IHS the DOI Bureau of Indian Education the Veterans Health Administration were also included in the EO.

The BIE-operated Southwestern Indian Polytechnic Institute, in ABQ, received designation in late 2022 or early 2023. Dr. Cecelia Cometsevah, vice president for student affairs at SIPI, headed up the efforts and worked with Suzanne Hursh in the SoS office. State personnel came to our campus, provided a presentation, and staff were deputized. The establishment of the office did not take long at all, so they say. Just wanted to flag for you in case you were unaware of that established connection.

In any case, looking forward to reconnecting in the new year and helping move this work forward.

Best,
Josh

Subject: RE: [EXTERNAL] Santa Fe Service Unit, NVRA, and EO 14019

Good afternoon,

Great! Thanks for the update. Looking forward to Santa Fe getting the all clear.

In terms of the event, we are open to times that work for you all. It doesn't have to be concurrent or near the time of the designation—especially as we get to the end of the year and the busy holiday season. As soon as we get a timeline for when the designation will land we can plan something to include SFSU, Area Office, and IHS national leadership, perhaps some tribal leadership, and of course relevant staff/leadership from the SoS office.

I am also excited about the upcoming meeting with Crownpoint. The goal is to have as much of the internal leg work down at the service unit by the meeting so a possible designation can come soon after.

I hope you all have a great holiday weekend and I look forward to connecting soon.

Best,
Josh

Good evening,

We share your excitement in hearing that the board signed off, and we are moving forward with official designation. The elections team is wrapping up the regular local election, and Charlotte Chinana, cc-ed here, will be in touch with Daniel regarding training and designation timelines once the work of the election canvass has concluded.

Please keep us in the loop on any sort of finalized plans regarding the event commemorating the designation. We would love to be able to participate.

Thank you for sharing that about the Crownpoint potential designation. I am excited to learn more on 12/5.

Best,

Lindsey

CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments.

Good evening all,

I believe I might have met one or all of you on an earlier virtual meeting regarding E.O. 14019 and the Santa Fe Service Unit. I am excited to hear their governing board has finally signed off and that they are a-go to receive NVRA designation. Daniel Cox tell me they have their business practices all updated and are ready to go to receive training from the state and the designation from the Secretary of State's office.

I am extremely excited to hear about this development—as are many others. Do you happen to have a timeline for a rollout of this? I would love to involve some area leadership as well as senior leadership (including myself) in an event with the Santa Fe Service Unit. And perhaps someone from the SoS office. In October we had such an event with the Arizona SoS when Native Health Phoenix was designated and press was involved—it was picked up by a few national Native outlets.

Additionally, the Navajo Area Office is working on standing up a site in their area—and they have picked Crownpoint Service Unit. Because of the geography of the Navajo Nation, either AZ or NM were going to get two sites, and NM won out. I know that the leadership of the Crownpoint unit has been in contact with you all and have a meeting on 12/5 regarding designation. I have also put them in contact with Santa Fe to start working on the business processes and such now so the 12/5 meeting goes smoothly.

Please let me know if I can be of any assistance in getting both of these sites designated in the near

future.

V/r

Additionally, the Navajo Area Office is working on standing up a site in their area—and they have picked Crownpoint Service Unit. Because of the geography of the Navajo Nation, either AZ or NM were going to get two sites, and NM won out. I know that the leadership of the Crownpoint unit has been in contact with you all and have a meeting on 12/5 regarding designation. I have also put them in contact with Santa Fe to start working on the business processes and such now so the 12/5 meeting goes smoothly.

Please let me know if I can be of any assistance in getting both of these sites designated in the near future.

V/r

Hello,

Native Health PHX is working towards designation. They had a call with the AZ SoS office and they were very supportive. I did get this request for examples/more information from the AZ about how to actually designate. I am running into this with a couple other states as well, it seems these might be more rare occurrences than initially thought.

Anything you can provide from other states/AZ-specific would be much appreciated.

Best,
Josh

Hi Josh,
Thank you for sharing this information with us. Currently, we are looking for examples of what other states have done to cofidy/memorize the designation. Do you have examples of that?
Did they use an IGA or a Proclamation? We know that we can enter into this arrangement, but we are looking for direction on how to operationalize it.
Thanks!
Murphy

Subject: RE: Meeting with election official

Sir, great timing. I have had communication with the State of Oklahoma, State Election Board, Ms. Misha Mohr, the NVRA Coordinator/PIO and upon our last conversation (see full conversation attached), we were informed In Oklahoma, elections are overseen by the State Election Board – an agency that is separate from the Secretary of State. At this time, they did not have the staff or resources to designate additional “official” voter registration entities.

I spoke to the Secretary of State's office and they explained to me that during the 1970's due to voter fraud the Secretary of State's Office was removed legislatively from all voter activity and the State Election Board was the State's sole Election Authority, and they have told me they do not have the staff or resources to designate additional “official” voter registration entities.

That is where I am at today. I will try to engage the Chief state election official on the Board, Mr. Paul Ziriach instead of Ms. Misha Morh, although I have little faith that will succeed.

We are continuing to partner with the State and to obtain Voter Registration Applications and develop our process for registration. In summary, yes, any support from our nonprofit partners on engagement with state and next steps would be helpful.

Kindest, Travis

Travis,

In Oklahoma, elections are overseen by the State Election Board – an agency that is separate from the Secretary of State. At this time, we do not have the staff or resources to designate additional “official” voter registration entities; however, we are more than happy to provide you with Voter Registration Applications so that you may offer services to your clients.

You can order Voter Registration Applications by completing the Request for Voter Registration Applications Form at <https://oklahoma.gov/content/dam/ok/en/elections/voter-registration-drives/vrdrive-request-form.pdf> and submitting it to info@elections.ok.gov. You may also download and print applications from the State Election Board website at <https://oklahoma.gov/content/dam/ok/en/elections/forms/voter-registration-application.pdf>.

I have attached PDFs of our voter registration poster (which include QR codes to the Online Voter Registration System) that you may download, print and use in your clinics. If you prefer to make your own posters, you can use the QR codes found on our Electronic Voter Registration Drive flyer at <https://oklahoma.gov/content/dam/ok/en/elections/voter-registration-drives/electronic-vrdrive.pdf>.

Please let me know if you have any questions.

Subject: [EXTERNAL] RE: Voter Registration Site Request
Importance: High

Ms. Mohr,

Good afternoon, I just got off a call with the Indian Health Service, Headquarters Program. They have informed me IHS is interested in our Wewoka Facility to be designated as an official designate our federal government agency.

While designation is not necessary for IHS to provide the more robust voter registration services, they are recommending it here. Thanks to the strong voter registration procedures in the NVRA, accepting designations made by a state can help IHS follow through on its commitment in response to the Voting EO, to “offer its patients assistance with voter registration” and, in turn, promote better individual and community health in Indian Country. Accepting designation can also facilitate interactions with the state by providing a registration model states are familiar with, making the process of receiving and returning registration material easier and smoother.

We were informed that this designation usually comes from the Secretary of State and were hoping that we could start this conversation with the Stat Election Board and decide where to go from there regarding designation.

Also, the last we spoke, we were looking for guidance on where to order the forms and obtain the QR codes for the registration process? I Have added the Chief Executive Officer, Mr. Daniel Sherron to the email, he will be your POC for this process.

Let me know when a good time to meet virtually this or next week regarding both the internal registration process at Wewoka and the steps toward how to be come a State designated NVRA site. We are looking to see if the Oklahoma State Election Board would have interest in working with us to obtain NVRA designation through the Secretary of State. Similar to what was provided in the attached letter from the State of Kansas to Haskell Indian Nations University.

Kindest, Travis.

Subject: RE: Voter Registration Site Request

Mr. Watts,

In Oklahoma, any entity or organization may request, collect, and/or mail or hand deliver Voter Registration Applications to the Election Board on behalf of applicants.

Some organizations and businesses have what we refer to as “ongoing” voter registration drives. The entity or organization simply completes a Request for Voter Registration Applications. Upon approval, the entity or organization is notified when their applications are ready for pick up at their County Election Board. Once the supply has been depleted, the entity or organization can apply for more.

For your organization, you may want to consider a combination of an “ongoing” traditional, paper voter registration drive **and** an electronic voter registration drive. Here is the information regarding electronic drives: <https://oklahoma.gov/content/dam/ok/en/elections/voter-registration-drives/electronic-vrdrive.pdf>. (Electronic drives require no prior permission.) You can print information with a QR link to our Online Voter Registration System (see the link above) or set up a computer in your various clinics for clients to register online to vote. Electronic drives allow the voter to submit their information directly to the Election Board.

Providing the QR code or setting up an electronic “voter registration station” would provide your clinic the opportunity to offer voter registration services to individuals without the responsibility of collecting applications and ensuring that they are received by each of the voter registration deadlines. (Keep in mind that in odd-numbered years, Oklahoma has elections every month – with voter registration deadlines leading up to each election. Applications that are not received by the deadline are required to be held and processed after the election.)

The Request for Voter Registration Applications is available at <https://oklahoma.gov/content/dam/ok/en/elections/voter-registration-drives/vrdrive-request-form.pdf>.

Our Voter Registration Drive Q & A and Tips can be found at

<https://oklahoma.gov/content/dam/ok/en/elections/voter-registration-drives/vrdrive-info-tips.pdf>. I am also including a link to our Legal Responsibilities handout: <https://oklahoma.gov/content/dam/ok/en/elections/voter-registration-drives/registering-voters-legal-responsibilities.pdf>. I recommend making copies and providing it to anyone who will be assisting voters.

Please feel free to give me a call if you have any questions.

Subject: Voter Registration Site Request
Importance: High

Ms. Mohr,

Thank you for taking my call today. I appreciated the conversation and am excited to enhance voter registration opportunities for First Americans in Oklahoma. On March 7, 2021, President Biden issued an Executive Order on Promong Access to Voting (EO). In the EO, the President specifically named the unique barriers to voting faced by Native people and directed federal agencies to do what they can to address these barriers. Included in the EO is a task for the Indian Health Service to develop registration at places that explicitly serve Native people. This includes our Federal Indian Health Service locations in Oklahoma.

Our Oklahoma Area facilities in Wewoka and Clinton, Oklahoma would like to engage and meet the requests in the EO to become Oklahoma Voter Registration Support sites with the mission/vision of these sites to:

- Add to the scope of services provided at both Wewoka and Clinton Indian Health Service clinics, the ability to offer voter registration services at each location in Oklahoma.
 - Expectation is for each facility to offer voter registration forms at the time a patient presents to the clinic;
 - Offer to either mail the completed form to the State Election Board or provide mailing information to the State Election Board to the individual;
 - The sites will have a POC that will obtain voter registration forms from the State Election board and assure we have open communication from our two sites and the State. The Federal Clinics at Wewoka and Clinton will follow Election Board instructions to assure process is sustainable and creditable.

Please let me know what next steps would be and a POC to engage further for this project.

Kindest, Travis

Hello Susan,

Hope you are doing well. I am sure you were following the news over the weekend, so we are in a different space today than I think a lot of us thought we would be on Friday re: government funding.

I know you have your Native Health Open House and you do a lot of voter registration/engagement then. And there was talk about possible having some sort of declaration—or hopefully NVRA designation—at the event. Do you have any updates on that? If the NVRA part is a go, I would love to attend and invite Dr. Reidhead. I will need to make travel plans soon if that is the case.

Best,
Josh

All,

More good news on a Friday. Daniel Cox, CEO of the Santa Fe Service Unit, just informed me that their governing board has signed off on NVRA designation. As I mentioned before, because of SFSU's unique nature, they had to work individually with each of the nine Pueblos to get sign off. That occurred this week. The Secretary of State has the designation ready to be issued and should be signed in short order.

I will follow up with more details as I get them regarding possible event/ceremony/press.

Best,
Josh

In some good news in time for the holiday weekend:

The first of the five IHS sites to receive NVRA designation will be Native Health Phoenix. All three of their Maricopa County locations will be designated during a special ceremony with leadership and the Secretary of State's office during NH's annual Open House 10/14. I plan to attend along with PAO leadership.

The other sites are coming online soon as well. But this is the first! And, the SoS office says to the best of their knowledge NH is the first organization in Arizona to receive designation.

Best
Josh

Hi All,

Very last minute, but would any of you want to join the call I am having with the Area Directors and leadership of the sites for the next group of candidates for designation? I find someone from this group is able to better answer some of the technical questions. It is tomorrow from 3:30pm to 4pm EDT. We can try to reschedule for earlier next week if that doesn't work.

Great Plains Area and Oyate Health Care (SD)
Nashville Area and Native Lifelines (MD)
Portland Area and Western Oregon Service Unit (OR)
Navajo Area and either Chinle Service Unit (AZ) or Gallup Indian Medical Center (NM)
Oklahoma City Area and Wewoka Indian Health Center (OK).

Thanks

Josh.

Subject: Outreach requests/status for additional sites
Date: Wednesday, October 25, 2023 6:47:00 PM
Attachments: [Screen Shot 2023-10-24 at 8.05.01 AM.png](#)

Hello,

I am currently in Billings for the quarterly IHS executive leadership meeting. Since I am with all the area directors in person I've been checking in with them about their selected sites for some updates on progress. I wanted to circle back with you all about a few things.

First, the VP tweeted about Native Health! Attached a screen shot. [Here is the tweet](#) (or X whatever it is called). Also, some local press coverage [here](#) and [here](#) and the AZ SoS [press](#) release.

Next, I am still waiting on the remaining pueblo representatives on the governing board for the Santa Fe Service Unit. Dr. Thomas, ALB area director, still says it will happen; just slow moving working with the pueblos.

Byrce Redgrave (Billings area director) Crow Service Unit had a productive meeting with the Secretary of State and Western Native Voice last week. Waiting on a debrief from the service unity leadership Friday.

So, fingers crossed these two come online.

Last week, or the week before (time is fluid lately) we had a follow up call with some of the areas working to designate sites. I wanted to check in if any one of them reached out to you for help on identifying appropriate election officials and what an outreach email could look like? If they haven't reached out to you I can ping them.

They are:

- Native Life Lines in Baltimore
- Oyate Health in Rapid City, SD
- Crown Point Service Unit in New Mexico
- Western Oregon Service Unit in Salem, OR

Also, I had a call with the California and Alaska area offices. The California director was curious about the Shingle Spring Rancheria and if their health center received designation? If so, that would be a tribally run health care facility and thus would help fulfill a requirement (of course we can also stand up another one in California). The Alaska area director was curious if there is a way to find out if there are already NVRA voluntary designations in Alaska. She believes that some of the Alaska Native villages, corporations, or regional corporations (all of Alaska is Title V) might have received such a designation years ago.

Thanks,
Josh

Subject: RE: [EXTERNAL] Santa Fe Service Unit, NVRA, and EO 14019

Good afternoon/morning,

I hope the end of the year was joyful and you stated 2024 refreshed.

I wanted to circle back to this and see if there are any new developments and timeline update.

As I recall, there was an initially timeframe of March/April. I believe that was to develop training and materials. I am unsure if you are aware, but in addition to HHS/IHS the DOI Bureau of Indian Education the Veterans Health Administration were also included in the EO.

The BIE-operated Southwestern Indian Polytechnic Institute, in ABQ, received designation in late 2022 or early 2023. Dr. Cecelia Cometsevah, vice president for student affairs at SIPI, headed up the efforts and worked with Suzanne Hursh in the SoS office. State personnel came to our campus, provided a presentation, and staff were deputized. The establishment of the office did not take long at all, so they say. Just wanted to flag for you in case you were unaware of that established connection.

In any case, looking forward to reconnecting in the new year and helping move this work forward.

Best,
Josh

Subject: RE: [EXTERNAL] Santa Fe Service Unit, NVRA, and EO 14019

Good afternoon,

Great! Thanks for the update. Looking forward to Santa Fe getting the all clear.

In terms of the event, we are open to times that work for you all. It doesn't have to be concurrent or near the time of the designation—especially as we get to the end of the year and the busy holiday season. As soon as we get a timeline for when the designation will land we can plan something to include SFSU, Area Office, and IHS national leadership, perhaps some tribal leadership, and of course relevant staff/leadership from the SoS office.

I am also excited about the upcoming meeting with Crownpoint. The goal is to have as much of the internal leg work down at the service unit by the meeting so a possible designation can come soon after.

I hope you all have a great holiday weekend and I look forward to connecting soon.

Best,
Josh

Good evening,

We share your excitement in hearing that the board signed off, and we are moving forward with official designation. The elections team is wrapping up the regular local election, and Charlotte Chinana, cc-ed here, will be in touch with Daniel regarding training and designation timelines once the work of the election canvass has concluded.

Please keep us in the loop on any sort of finalized plans regarding the event commemorating the designation. We would love to be able to participate.

Thank you for sharing that about the Crownpoint potential designation. I am excited to learn more on 12/5.

Best,

Lindsey

Subject: [EXTERNAL] Santa Fe Service Unit, NVRA, and EO 14019

CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments.

Good evening all,

I believe I might have met one or all of you on an earlier virtual meeting regarding E.O. 14019 and the Santa Fe Service Unit. I am excited to hear their governing board has finally signed off and that they are a-go to receive NVRA designation. Daniel Cox tell me they have their business practices all updated and are ready to go to receive training from the state and the designation from the Secretary of State's office.

I am extremely excited to hear about this development—as are many others. Do you happen to have a timeline for a rollout of this? I would love to involve some area leadership as well as senior leadership (including myself) in an event with the Santa Fe Service Unit. And perhaps someone from the SoS office. In October we had such an event with the Arizona SoS when Native Health Phoenix was designated and press was involved—it was picked up by a few national Native outlets.

Additionally, the Navajo Area Office is working on standing up a site in their area—and they have picked Crownpoint Service Unit. Because of the geography of the Navajo Nation, either AZ or NM were going to get two sites, and NM won out. I know that the leadership of the Crownpoint unit has been in contact with you all and have a meeting on 12/5 regarding designation. I have also put them in contact with Santa Fe to start working on the business processes and such now so the 12/5 meeting goes smoothly.

Please let me know if I can be of any assistance in getting both of these sites designated in the near future.

V/r

Subject: Best email for tribal leaders to reach Dir. Tso?

Hi Ann,

My name is Ashley Tjhung and I am a Policy Analyst at Demos working on implementation of President Biden's Executive Order on Promoting Access to Voting. Along with our partners at the Native American Rights Fund, the National Congress of American Indians, and the Native Organizers Alliance, we are hosting a webinar tomorrow directed at tribal leaders and advocates about the potential impact of IHS designations on voter registration in Indian Country. We expect some may want to contact Dir. Tso in support of IHS's recent commitment to begin a pilot program at 5 facilities and encouraging IHS to provide support to tribes who wish to pursue designations. We want to ensure Dir. Tso is able to see the messages and also want to respect her time and inbox. Is there an email address that is best for this kind of correspondence?

We would appreciate a response before the webinar at 3 pm ET as we expect many of our participants may want to contact the Director following the webinar. I've also attached the flyer for the webinar for you to view.

Thank you for all you and Director Tso are doing to fully implement the Voting Access EO and ensuring the health and wellness for all IHS serves.

Best,

Ashley Tjhung

Thanks, Josh. I can wait to reach out to the Secretary until your call with Dr. Thomas and team in case any hiccups arise from that meeting. Then, we can reach out to the Secretary's office. There is no need to wait until August for designation but that does probably mean we should reach out fairly quickly after tomorrow's call. Happy to do so when we get the go ahead.

Thanks!

Hello Jacqueline,

Yes, please do move forward. Dr Thomas and relevant members of his leadership and I are meeting tomorrow to discuss next steps (along with Ty and Bryce). I plan to reach out to you all afterwards about trainings, materials, dates, and connecting with the SOS.

Sequentially, does this August meeting need to happen before designation? If so, could it happen sooner? I'd like to stick as much as possible to at least 1 if not 2 sites designated in July as I committed to the White House. Of course they will understand if I was overzealous.

Josh.

Hi Josh,

Thank you so much for your continued support moving the agencies toward designation. We wanted to do a quick check in regarding the ABQ designation. We were wondering if it is alright if we reached out to Secretary Toulouse-Oliver's office? We'd like to ask for a copy of the designation she executed for the SIPI, let her know about the possibility of designation of the ABQ facility, and potentially broach the subject of a meeting in August. Of course, if you prefer to do that we are happy to defer to you. What do you think?

Thanks,

Hi Josh,

Thank you so much for your continued support moving the agencies toward designation. We wanted to do a quick check in regarding the ABQ designation. We were wondering if it is alright if we reached out to Secretary Toulouse-Oliver's office? We'd like to ask for a copy of the designation she executed for the SIPI, let her know about the possibility of designation of the ABQ facility, and potentially broach the subject of a meeting in August. Of course, if you prefer to do that we are happy to defer to you. What do you think?

Thanks,

Hello,

Had a call with ABQ, BIL, and PHX area offices and the selected sites early today. We also had a call with our partners at VA an DOI about their efforts on the E.O., which was a very productive call.

All in all, we should be able to move forward with outreach to the NM SoS. When you get the MOA for SIPI will you please send along? Will you be including Dr. Thomas and Santa Fe Service Unit CEO Daniel Cox on that first email?

Josh

Thanks, Josh. I can wait to reach out to the Secretary until your call with Dr. Thomas and team in case any hiccups arise from that meeting. Then, we can reach out to the Secretary's office. There is no need to wait until August for designation but that does probably mean we should reach out fairly quickly after tomorrow's call. Happy to do so when we get the go ahead.

Thanks!

Hello Jacqueline,

Yes, please do move forward. Dr Thomas and relevant members of his leadership and I are meeting tomorrow to discuss next steps (along with Ty and Bryce). I plan to reach out to you all afterwards

about trainings, materials, dates, and connecting with the SOS.

Sequentially, does this August meeting need to happen before designation? If so, could it happen sooner? I'd like to stick as much as possible to at least 1 if not 2 sites designated in July as I committed to the White House. Of course they will understand if I was overzealous.

Josh.

Subject: RE: EO 14019 - Promoting Access to Voting
Date: Wednesday, August 30, 2023 4:43:00 PM

Greetings from HHS Region 5 Tribal Consultation in Choctaw Mississippi.

The NAS, PDX, and GPA area offices identified service units and sites that are willing to participate in becoming on NVRA.

Portland: Western Oregon Service Unity (aka Chemawa) in Salem, OR. A federal site.

Nashville area: Native American Lifelines (located in Baltimore and Boston, but preference for Baltimore location). An Urban Indian Organization.

Great Plains Area: Oyate Health Center in Rapid City. Tribally owned and operated site.

I'd like to set up a meeting with the Area Directors and the leadership of the three sites and a subset of this group if anyone is able. Ideally the first two weeks of September. Can you send some times that work on your end?

Thanks,
Josh

Greetings from Tulalip, WA. Here for the first ever National Tribal Opioid Summit.

Some updates. I meet with NAS, GPA, and PDX area offices Monday and they are going to send me the sites under consideration sometime next week. I'll then work on getting a meeting with the Area Directors, the leadership of the sites selected, and you all for early September.

I am meeting next week with the Navajo Area and Oklahoma City Area directors to start the process with them. They are the last two of the 8 areas that committed earlier in the year. I will have to figure out next steps with the remaining for (Alaska, California, Bemidji, and Tucson areas) soon.

Also, if you have any more examples of designation letters or MOAs to share, please do. People find them helpful.

Best,
Josh

Hi Josh,

Thanks for following up. Attached is a letter that demonstrates how Kansas effectuated the designation. The process can be as simple or as formal as the state chooses. For example, in Kansas this letter sufficed and we think it's a good example of how to simply and expeditiously move forward with designation.

Alternatively, next week on August 22 we are having a ceremony at the tribally run healthcare facility in Shingle Springs where the California Secretary of State is going to the Rancheria to formally issue a declaration issuing the designation and where the tribe is passing a tribal resolution accepting the designation. Mostly, the point of this August 22 ceremony is to publicize the designation. Here is a link to how California designates – the Secretary issues a declaration: [NVRA Designated Agencies \(ca.gov\)](#). So following the ceremony, Shingle Springs Health and Wellness center will be added to this Declaration.

Hope that helps. Please let me know if you have any questions.

Thanks,
Jacqueline

Hi Josh,

Thank you for sharing this information with us. Currently, we are looking for examples of what other states have done to cofidy/memorize the designation. Do you have examples of that?

Did they use an IGA or a Proclamation? We know that we can enter into this arrangement, but we are looking for direction on how to operationalize it.

Thanks!

Hi Josh,

We had a call this afternoon and have a number of things we'd like to check in with you about. Do you have time this week or next for a touch base call? Thanks so much for all of your hard work – the developments are very exciting!

Thanks,
Jacqueline

Hello,

Native Health PHX is working towards designation. They had a call with the AZ SoS office and they were very supportive. I did get this request for examples/more information from the AZ about how to actually designate. I am running into this with a couple other states as well, it seems these might be more rare occurrences than initially thought.

Anything you can provide from other states/AZ-specific would be much appreciated.

Best,
Josh

Hi Josh,

Thank you for sharing this information with us. Currently, we are looking for examples of what other states have done to codify/memorize the designation. Do you have examples of that?

Did they use an IGA or a Proclamation? We know that we can enter into this arrangement, but we are looking for direction on how to operationalize it.

Thanks!

Subject: RE: EO 14019 - Promoting Access to Voting

Greetings from HHS Region 5 Tribal Consultation in Choctaw Mississippi.

The NAS, PDX, and GPA area offices identified service units and sites that are willing to participate in becoming on NVRA.

Portland: Western Oregon Service Unity (aka Chemawa) in Salem, OR. A federal site.

Nashville area: Native American Lifelines (located in Baltimore and Boston, but preference for Baltimore location). An Urban Indian Organization.

Great Plains Area: Oyate Health Center in Rapid City. Tribally owned and operated site.

I'd like to set up a meeting with the Area Directors and the leadership of the three sites and a subset of this group if anyone is able. Ideally the first two weeks of September. Can you send some times that work on your end?

Thanks,
Josh

Subject: RE: EO 14019 - Promoting Access to Voting

Greetings form Tulalip, WA. Here for the first ever National Tribal Opioid Summit.

Some updates. I meet with NAS, GPA, and PDX area offices Monday and they are going to send me the sites under consideration sometime next week. I'll then work on getting a meeting with the Area Directors, the leadership of the sites selected, and you all for early September.

I am meeting next week with the Navajo Area and Oklahoma City Area directors to start the process with them. They are the last two of the 8 areas that committed earlier in the year. I will have to figure out next steps with the remaining for (Alaska, California, Bemidji, and Tucson areas) soon.

Also, if you have any more examples of designation letters or MOAs to share, please do. People find them helpful.

Best,
Josh

Hi Josh,

Thanks for following up. Attached is a letter that demonstrates how Kansas effectuated the designation. The process can be as simple or as formal as the state chooses. For example, in Kansas this letter sufficed and we think it's a good example of how to simply and expeditiously move forward with designation.

Alternatively, next week on August 22 we are having a ceremony at the tribally run healthcare facility in Shingle Springs where the California Secretary of State is going to the Rancheria to formally issue a declaration issuing the designation and where the tribe is passing a tribal resolution accepting the designation. Mostly, the point of this August 22 ceremony is to publicize the designation. Here is a link to how California designates – the Secretary issues a declaration: [NVRA Designated Agencies \(ca.gov\)](#). So following the ceremony, Shingle Springs Health and Wellness center will be added to this Declaration.

Hope that helps. Please let me know if you have any questions.

Thanks,
Jacqueline

Indian Health Services Voter Registration Guide

Today, over a third (34 percent) of eligible Native Americans are not registered to vote.¹ The National Congress of American Indians (NCAI), the Native American Rights Fund (NARF), and Demos are delighted to work in partnership with Indian Health Services (IHS) to provide high quality voter registration services to eligible Native voters. IHS serves roughly 2.6 million American Indian and Alaska Native patients annually, presenting the most significant opportunity to expand meaningful registration opportunities to Native Americans.² And indeed, because civic engagement is a proven contributor to the social determinants of public health,³ voter registration services are well aligned with IHS' mission to increase the wellbeing of Native Americans. Thank you for your ongoing effort to meet the charge of President Biden's March 7, 2021, Executive Order Promoting Access to Voting ("Voting EO") instructing federal agencies, to the greatest extent practicable under existing law, to A. consider ways to expand citizens' opportunities to register to vote and to obtain information about, and participate in, the electoral process and B. agree to accept designation under the National Voter Registration Act.⁴

As a trusted agency providing critical medical services to American Indian and Alaska Native communities across Indian Country, IHS has an important role to play in decreasing barriers and facilitating civic participation among Native communities. Too often, Native Americans do not have registration opportunities – county registration sites are far away, Department of Motor Vehicles are located off reservation, and public assistance opportunities are provided through federal treaty obligations instead of state-run programs that offer registration.⁵ Consequently, the Indian Health Service provides the most meaningful opportunity to engage with and register the most under-served eligible Native American voters.

⁵ Dr. James Thomas Tucker, Jacqueline De León, and Dr. Dan McCool, *Obstacles at Every Turn: Barriers to Political Participation Faced by Native American Voters*, Native American Rights Fund, 2020, <https://vote.narf.org/obstacles-at-every-turn/>.

This document provides guidance on how to effectively conduct voter registration in the healthcare context. It was developed based on conversations with several organizations that have experience registering voters in healthcare settings and with individuals familiar with the IHS context. It was also informed by our many years of experience supporting staff in state agencies to design, implement, and conduct voter registration, including agencies that administer healthcare programs like Medicaid. This guidance includes recommendations related to:

- I. The opportunity to **leverage the expertise of nonprofit, nonpartisan partners** who have significant voter registration experience and that can support IHS during this initial development phase and on an ongoing basis after IHS has integrated voter registration into its patient services
- II. How to **effectively conduct voter registration** in the healthcare context
- III. Guidance on how to effectively and **successfully prepare IHS staff to provide voter registration services**
- IV. **Ideas for materials, messaging, branding** that can help IHS meet its goals related to effectively providing voter registration alongside its critical mission of providing high quality health care
- V. Working with state officials to formally **designate IHS facilities as voter registration agencies** under the NVRA.

We also created a document detailing general best practices for federal agencies overall, which may also be helpful.⁶

Our groups are eager to share our significant experience with voter registration and with effective engagement in American Indian and Alaska Native communities. We look forward to discussing these recommendations and supporting you as you implement your plan for assisting patients with voter registration at IHS facilities.

I. Leverage the Expertise of Nonprofit, Nonpartisan Partners

IHS does not need to start from scratch as it works to incorporate high quality voter registration services into its facilities. There are nonprofit, nonpartisan organizations both within Indian Country and outside it with significant experience developing voter registration programs in healthcare and other similar contexts. Many of these organizations are eager and happy to provide technical assistance and thought partnership. There are also opportunities to leverage trusted actors within Native communities who could be strong partners to IHS facility leadership and staff in implementing voter registration services that will meet the needs of IHS' patients, such as members of the pilot Native Health Coaches program.

Working with third parties such as these has many benefits. Most fundamentally, trusted third parties can provide additional guidance that can help ensure voter registration services are high quality, even in places where IHS staff capacity is limited. Additionally, partnerships with these

⁶ Best Practices for Federal Agency Voter Registration, Demos & ACLU, 2021, <https://www.demos.org/policy-briefs/best-practices-federal-agency-voter-registration>.

groups can help IHS build trust with patients in this new area of services. Similar to the trust IHS enjoys in its provision of medical care, these third parties are often members of IHS patients' communities and have built familiarity with and trust in the work they do to improve access to registration and voting. These groups can help raise awareness about and generate trust in IHS voter registration services. Finally, these third parties are often well-situated to share expertise on how to provide adequate and culturally appropriate language assistance in the voter registration process.

Nonprofit, Nonpartisan Voter Engagement Organizations

There are a number of nonprofit, nonpartisan organizations in Indian Country who would be excellent partners in offering experience and expertise to IHS staff as they work to integrate high quality voter registration services. These organizations have significant experience conducting nonpartisan voter registration and have staff who are already trained in the essentials, such as: respectfully approaching patients to offer voter registration, protecting registrant confidentiality, ensuring the interaction remains nonpartisan, complying with their state's third-party registration requirements, and collecting and transmitting completed voter registration applications to appropriate local or state election officials.

These organizations include the NCAI Native Vote coalition, InterTribal Council of Arizona, the Native American Voting Rights Coalition (NAVRC) and its members, California Native Vote Project, NDN Collective, Western Native Vote (Montana/Idaho), Four Directions, Advanced Native Political Leadership, Phoenix Indian Center, National Urban Indian Family Coalition, Alaska Native Vote, Great Plains Tribal Chairmen's Association, and individual citizens engaged in strengthening civic participation in AIAN communities and numerous partner organizations. **The Native American Voting Rights Coalition is continuing to update their lists of state and regional partners in GOTV and are willing to provide contact information.**

National Health Coaches (Pilot Program)

In addition to these existing potential partners—and any others local IHS leadership may be able to identify—IHS should consider integrating a voter registration component into the National Health Coach Pilot Project it is launching this year.⁷ Experience with a similar program in the VA context shows that these coaches become integral members of a healthcare facility community and are excellent ambassadors for an activity that is essential to the health and wellness of Native communities: voting. These highly trained and trusted actors will already be operating within some IHS facilities to support patients to live healthy lives, and they would be excellent candidates for checking on a patient's voter registration status and, if desired, supporting patients to register to vote, to update their registration, or to access voter education materials.

Even in IHS facilities where the Native Health Coaches program is not being piloted, there may already be analogous actors who are integrated into the healthcare experience, who could offer voter registration services or support.

⁷ National Health Coach Pilot Project, Indian Health Services, <https://www.ihs.gov/dccs/nhcopp/>. The pilot phase's first 50 participants are being trained between April – October 2022, so there is still time to integrate a simple voter registration component into their training. Our organizations support training of staff doing voter registration in other contexts and can provide sample training materials.

II. Effectively Conducting Voter Registration in the Healthcare Context

Years of experience registering eligible voters in private healthcare contexts and at state agencies providing other services make clear it is straightforward, cost-effective, and impactful to offer community members voter registration services alongside the medical care or other business they are conducting. State agencies like departments of motor vehicles, Medicaid and SNAP offices, and offices serving people with disabilities have been registering voters for decades without burden on staff or disruption of client services. In the state of Michigan, voter registration activities conducted by Michigan the Department of Human Services **averaged just \$7,000 per site per year** in 2019 and 2020.⁸ Most importantly, when agencies provide high-quality voter registration services, millions of additional people are added to the registration rolls.⁹

Acquiring Voter Registration Forms

As a starting place, IHS staff should ensure there are adequate voter registration forms at the facility. The process for securing voter registration forms varies state by state, so staff should consult with local or state election officials, some of whom will likely be willing to provide blank registration forms directly to IHS facilities. In many states, IHS staff can simply print voter registration forms from the Secretary of State's or local election official's websites to keep forms well-stocked at the facility. Where state forms are required to be obtained by local or state election officials, we are happy to advise on the process if needed.

Offering Voter Registration

Exactly when and how IHS staff offer voter registration will depend on a few factors, including the nature of the intake process, the layout of the facility, and the connectivity of the facility. The following are general best practices that will be possible in many facilities; we are happy to discuss specific circumstances and provide site-relevant recommendations directly to IHS facilities if they determine how to integrate voter registration.

Generally, the intake or check in process is an excellent place to offer patients the chance to register to vote. Patients can be asked whether they are registered to vote at their current address, and if not if they want to register to vote—the “voter registration question”—as part of the intake process. If the intake process happens in person at the IHS facility, the staff member conducting this intake can ask the voter registration question after collecting the other relevant information. If the patient is interested, staff can then provide a voter registration form and offer to provide assistance filling out the form, if the patient desires it. If the facility needs to move patients through intake quickly, this staff person could also send the patient to a separate designated staff member for help filling out the form and move on to intake for the next patient.

If intake happens over the phone before the visit, the IHS staff person making the call can ask the voter registration question and let the patient know someone will be available to offer assistance filling out the voter registration form when they come in for their appointment. If patients complete the intake process online before their visit, there can be a question about voter registration and a

⁸ Michigan DHHS administers SNAP, Medicaid/CHIP programs. Data obtained via public records requests.

⁹ Laura Williamson, Pamela Cataldo, and Brenda Wright, *Toward a More Representative Electorate*, Dēmos, December 21, 2018, 6. <https://www.demos.org/research/toward-more-representative-electorate>.

note that someone will be available to offer assistance filling out the voter registration form when they come in for their appointment. Most states also offer online voter registration, so in cases where IHS facilities are situated in communities with broadband access and utilizes an online intake form, that form can also link directly to the state's online voter registrations system.¹⁰

For existing patients, a similar process can be utilized during the check in process. As the IHS staff member checks to ensure the patient's insurance is up to date, they can also ask if they have moved, changed their name, or otherwise may need to update their voter registration, or if they're not registered to vote already, if they want to register for the first time. If the patient desires to register or to update their registration, the IHS staff member can follow the procedures described above.

Alongside integrating voter registration into the intake or check in processes, in a circumstance where the medical staff at an IHS facility is comfortable, the topic of voting and voter registration could also be integrated into the interaction between the patient and the healthcare provider. For example, Vote-ER, an organization that supports healthcare providers and facilities to integrate voter registration and education into their services,¹¹ suggests asking a question about voter registration alongside routine health evaluation questions like "Do you smoke?," "Do you drink?," "Are you safe at home?," "Are you registered to vote?," or after completion of the medical history, through a question like "We're all done with this part of our history. Now I want to transition to something else that's also important to your health and wellbeing, and that's voting. Are you registered to vote?" Such conversations help patients draw connections between voting and their health and wellness (and that of their community) and engage a trusted messenger in helping to normalize voting. For any patients who are interested, the medical provider could then direct the patient to check in with intake staff to learn about how to register to vote on their way out of the appointment.

Ensuring Completed Voter Registration Forms are Submitted to Election Officials

Ideally, any time a patient completes a voter registration form, IHS staff would collect that completed form and transmit it to the appropriate state or local election officials in a timely fashion.¹² In this case, completed voter registration forms should be stored in a secure location until they are transmitted by a designated and trained staff member, either by mail or in person. Agencies that collect and transmit completed voter registration forms see higher registration rates, because when clients or patients take voter registration applications home to complete later or to mail on their own, they often face barriers to completing the process and do not become registered.

For facilities where transmission of completed forms may be logistically impossible, IHS can still take steps to help ensure the patient becomes registered. For example, election officials in some localities and states may be willing to collect completed forms from the IHS facility, in which case IHS staff would only be responsible for collecting and securely storing the forms, and for notifying election officials if a pickup is required outside the regularly scheduled pickups.

¹⁰ "Online Voter Registration," National Conference of State Legislatures, last updated July 2021, <https://www.ncsl.org/research/elections-and-campaigns/electronic-or-online-voter-registration.aspx>.

¹¹ Vote-ER, <https://vot-er.org/>.

¹² The NVRA is again a good model for this. It requires agencies to transmit completed voter registration applications to the appropriate election official within 10 days after the client completes the application (and within 5 days before the voter registration deadline for federal elections).

If election officials are not willing or are unable to pick up completed forms, IHS staff can provide patients with an addressed, stamped envelope they can use to mail their completed form, and can direct patients to the closest USPS mailbox.¹³ In some states, such as New Mexico, voter registration forms make clear that postage is not required; patients, or IHS staff who collect the completed form need, simply seal the voter registration form and drop it in a USPS mailbox.¹⁴

In cases in which IHS staff do not collect completed forms, it is extra important that the staff member remind patients to mail in their completed forms and make clear any upcoming voter registration deadlines. IHS staff could even do a follow up call to remind patients to submit their voter registration applications.

III. Successfully Prepare IHS Staff to Provide Voter Registration Services

All IHS staff engaged in any step in the voter registration process should complete an initial training upon beginning in their role, and they should receive refresher training each year. Training should be developed with the support of voter registration experts and organization(s) with experience and expertise in community and civic engagement with Native American communities. **Our organizations are eager to serve as a resource to IHS headquarters and to any individual facilities that are developing staff training.**

Trainings for staff engaged in voter registration with patients should at a minimum include:¹⁵

- At a conceptual level, the link between physical and mental health and civic engagement, especially voting;¹⁶ the importance of ensuring all eligible people have access to registration and voting; the significant and persistent registration gaps faced by American Indian and Alaska Native communities;¹⁷ and the role IHS can play in removing barriers to democratic participation.
- General information about who is eligible to register to vote in the state, including that an individual must be a U.S. citizen to vote.¹⁸
 - Note that IHS staff themselves are not responsible for determining eligibility nor

¹³ The National Mail Voter Registration Form (NMVRF) provides an address for delivery of completed voter registration forms in almost all states. *National Mail Voter Registration Form*, U.S. ELECTION ASSISTANCE COMM'N, <https://www.eac.gov/voters/national-mail-voter-registration-form>; see also 52 U.S.C. § 20505(a).

¹⁴ For example, see New Mexico's voter registration form, <https://portal.sos.state.nm.us/ovr/VRForms/VRFormEnglishFinal.pdf>, and Georgia's voter registration form, https://sos.ga.gov/sites/default/files/forms/GA_VR_APP_2019.pdf.

¹⁵ We can provide samples of voter registration training for agency staff from state government agencies, and/or can work with IHS facility leadership to develop training specific to IHS staff needs.

¹⁶ Susan H. Babey, Joelle Wolstein, and Shana Charles, *Better Health, Greater Social Cohesion Linked to Voting*, <https://healthpolicy.ucla.edu/publications/search/pages/detail.aspx?PubID=1963>.

¹⁷ Report of the Interagency Steering Group on Native American Voting Rights, March 2022, page 9, <https://www.whitehouse.gov/wp-content/uploads/2022/03/Tribal-Voting-Report-FINAL.pdf>.

¹⁸ The National Mail Voter Registration Form and state voter registration applications describe the eligibility requirements to register to vote. See footnote 13 for more detail on the NMVRF.

liable if an ineligible person registers to vote. Election officials themselves are responsible for reviewing voter registration applications and verifying eligibility.

- How to ask a question about voter registration in the healthcare context, i.e. when patients are focused on the purpose of their health appointment.
- The specific processes an IHS facility has developed for:
 - Asking the voter registration question;
 - Distributing voter registration applications to interested patients;
 - Offering assistance in completing the application to interested patients;
 - Collecting and storing completed applications, as applicable; and
 - Transmitting it to elections officials, as applicable.
- Description of the fields in the voter registration application, including which fields are required for the registration to be complete and accepted, and what information should be supplied for each required field.
- Answers to commonly asked questions about filling out the voter registration application and about voting.
- Information on how clients can contact state or local election officials if they have additional questions about voter registration or voting.¹⁹
- How to ensure that the voter registration application is completely filled out and legible, before accepting and transmitting the application to the appropriate election official (as applicable) or sending the patient with an addressed, stamped envelope.
- The importance of making clear to patients that voter registration is voluntary—they are not required to register to vote to obtain services.
- The strict prohibition on partisanship and the strict rules around confidentiality.

Voter Registration Coordinator

One of the primary ways to ensure effective voter registration at IHS facilities is to appoint a “voter registration coordinator” within each facility, whose responsibility it is to ensure high quality voter registration services are provided to all eligible patients. This need not be a full-time position; voter registration oversight can likely be added to the duties of a staff member who is already playing a supervisory or oversight role within an IHS facility. Having an appointed voter registration coordinator can make the difference between effective voter registration efforts—i.e. registration that is convenient, efficient for the facility, and simple for patients to navigate and, as a result, maximizes the number of Native American voters added to the registration rolls—and ineffective efforts. This is a model employed by many state agencies to meet their obligations under the National Voter Registration Act.²⁰

¹⁹ Contact information is maintained by the General Services Agency on USA.gov, <https://www.usa.gov/election-office>.

²⁰ For example, Arizona, Kansas, North Carolina, and Oklahoma, to list a few.

The voter registration coordinator should have additional training, beyond the annual training for other staff involved in offering voter registration services, and their duties should include:

- Ensuring adequate training for all agency staff engaged in providing voter registration services, via an initial training at the point of hire and an annual refresher training like that described above.
- Being responsible for maintaining voter registration supplies (such as blank voter registration applications).
- Ensuring voter registration services are being offered during relevant transactions and providing quality control of those services.
- Setting up and monitoring a system for delivering completed applications to election officials, as applicable.
- Collecting and making publicly available data on the number of people submitting registration applications through the program or agency.

IV. Ideas for Materials, Messaging, and Branding

It is important to think through the type of messaging and materials that will resonate with different audiences related to voter engagement. Often, when and how something is said is just as important as what is said. Possibilities may include: Messages on GoodHealthTV encouraging people to take advantage of voter registration opportunities in IHS facilities, and/or informational sheets that can be supplied in waiting rooms explaining how clients can access voter registration. Additionally, voters in Native American communities tend to respond to messages delivered by trusted messengers in the community and relate to topics that directly affect their families and community. Our groups stand ready to help IHS develop culturally competent messaging that resonates with Native voters.

V. Designate IHS Facilities as NVRA Voter Registration Agencies

The National Voter Registration Act of 1993 (NVRA) provides that states can designate federal government agencies as voter registration agencies.²¹ The Voting Access EO requires that “[e]ach agency, if requested by a State to be designated as a voter registration agency pursuant to section 7(a)(3)(B)(ii) of the National Voter Registration Act, shall, to the greatest extent practicable and consistent with applicable law, agree to such designation.”²²

Designation is not necessary for IHS to provide the more robust voter registration services recommended here. However, thanks to the strong voter registration procedures in the NVRA, accepting designations made by a state can help IHS follow through on its commitment in response

²¹ National Voter Registration Act, §7(a)(3)(B)(ii).

²² “Executive Order on Promoting Access to Voting,” Section (4)(b), March 7, 2021, <https://www.whitehouse.gov/briefing-room/presidential-actions/2021/03/07/executive-order-on-promoting-access-to-voting/>.

to the Voting EO, to “offer its patients assistance with voter registration”²³ and, in turn, promote better individual and community health in Indian Country. Accepting designation can also facilitate interactions with the state by providing a registration model states are familiar with, making the process of receiving and returning registration material easier and smoother.

The Department of the Interior has led on securing designations of important institutions in Indian Country. It has designated Haskell Indian Nations University in Kansas and is in the process of designating the Southwestern Indian Polytechnic Institute (SIPI) in New Mexico. Other agencies, like the Department of Veterans Affairs and the Small Business Administration, are also pursuing NVRA designation in a handful of places.²⁴

IHS, too, could pursue NVRA agency status by starting with a handful of pilot designations in IHS facilities that are high-functioning and serve sizeable populations within Indian Country. One facility we believe is a great candidate for designation is the Albuquerque, NM IHS facility. Albuquerque Area IHS delivers services to more than 86,000 Native Americans through a system of four hospitals, 12 health centers, six health stations, two urban Indian programs, one dental center, and one regional residential treatment center. As a trusted provider of critical health care services in Albuquerque and the region, the Albuquerque Area IHS is well-situated to provide impactful voter registration services for Native American communities. Further, because of DOI’s work toward securing designation of SIPI in New Mexico, leadership in the state is already familiar with NVRA designation.

A few other good candidates include the Pima County, AZ facility, where we believe there is an eager partner in the County Recorder, as well as the Shurz, Red Lake, and Bimidji facilities, and the Reno Sparks and Denver facilities. By starting with a small number of promising locations in both rural and urban areas, IHS can learn how to become an effective NVRA voter registration agency and, in time, scale up to serve even more of Indian Country through a broader set of IHS facilities.

* * *

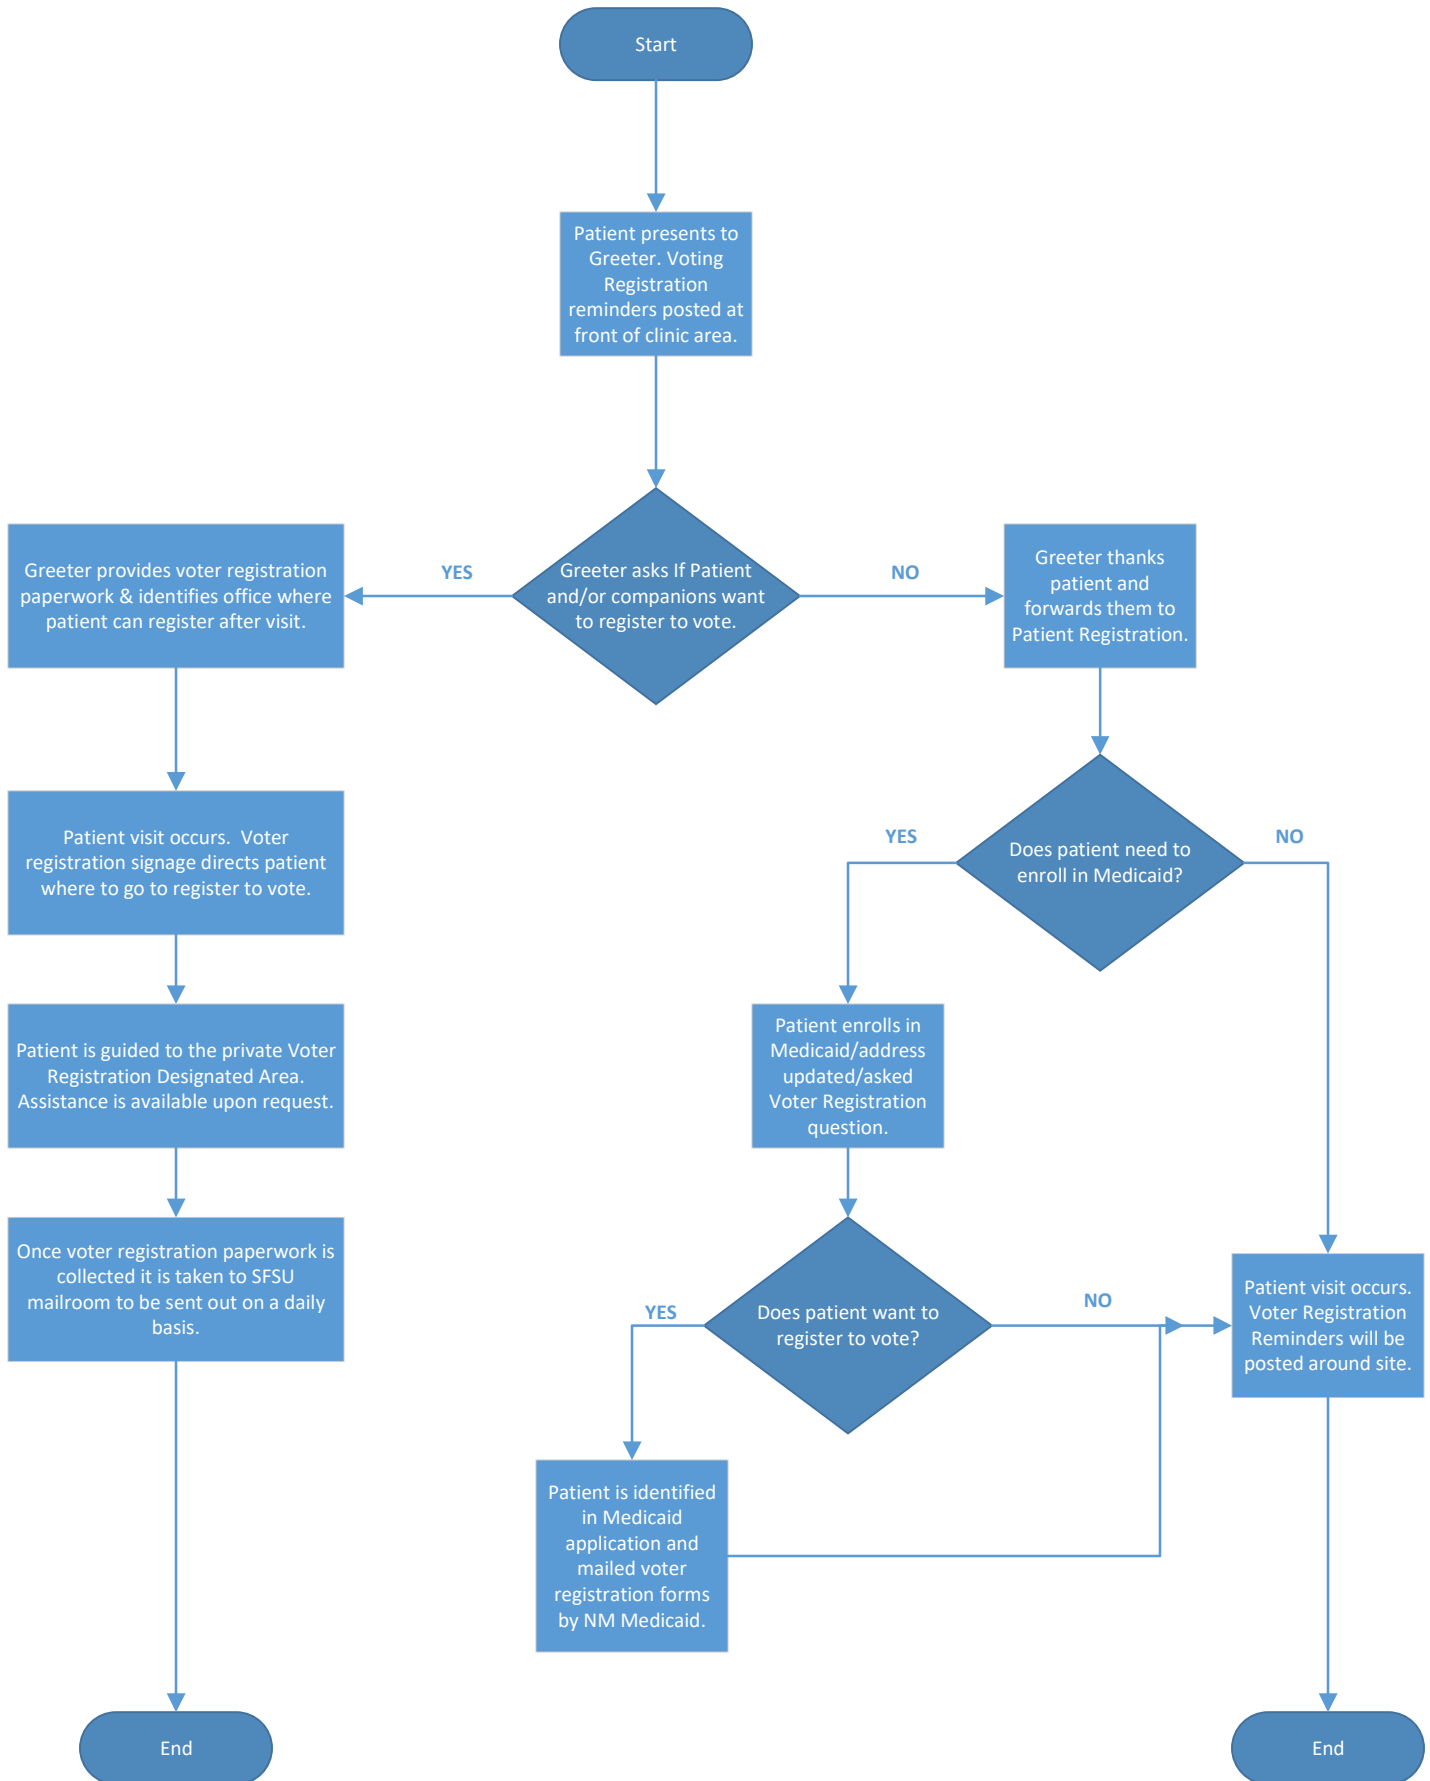

The trusted relationship that IHS has established with Native communities provides a strong foundation for offering voter registration services alongside existing IHS interactions. Civic engagement is a proven contributor to the social determinants of public health,²⁵ and as such is a strong potential multiplier of IHS’s mission of promoting the health of Native communities. Advocates for AIAN communities stand ready to partner with IHS to achieve the promise of President Biden’s Executive Order for their communities.

Subject: NAV, NAS, GPA, PDX, OKC call tomorrow

Hi All,

Very last minute, but would any of you want to join the call I am having with the Area Directors and leadership of the sites for the next group of candidates for designation? I find someone from this group is able to better answer some of the technical questions. It is tomorrow from 3:30pm to 4pm EDT. We can try to reschedule for earlier next week if that doesn't work.

Great Plains Area and Oyate Health Care (SD)
Nashville Area and Native Lifelines (MD)
Portland Area and Western Oregon Service Unit (OR)
Navajo Area and either Chinle Service Unit (AZ) or Gallup Indian Medical Center (NM)
Oklahoma City Area and Wewoka Indian Health Center (OK).

Thanks

Josh.

Last I heard from the SoS office is that they were going to send along possible training dates for late Feb and early March to deploy at the two service units and then designation will follow. However, that was in late January and I haven't heard back yet. I can check with the service units, but it seems we are just waiting for the state to move.

Best,
Josh

Including the correct Ashley. I included another one working on the Crow Service Unit—too busy multitasking while at the STAC meeting.

I hope you all had a great holiday and holiday weekend.

Just sharing that the Great Plains Area will also look at potential other sites in Iowa and Nebraska due to some concerns over feasibility in South Dakota. Did the leads for Oyate Health in Rapid City reach out yet?

Of IA or NE unsure if you have ideas or leads, but wanted to send your way.

Also, RADM Watts is going to explore options in Kansas since the OK Election Board is somewhat stonewalling. But you did mention you were researching other avenues/points of contact. Any news on that front?

Thanks,
Josh

Subject: NVRA and Great Plains Area

Hey Joe,

Great to see you this week. And thank you for being a pinch-hitter for Dan for the game show

Thursday.

I wanted to quickly touch base on the voting EO. Ms. Church identified the leads for Oyate Health around this area of work and they have been in contact with NARF and other nonprofit partners.

However, they did flag they are worried about South Dakota in terms of the leadership of the state and the political context. We will still press ahead, but wanted to see if you could identify sites in Nebraska and Iowa that could be candidates? Unfortunately, ND is not eligible for NVRA as they were exempted in the act (as well as DC and four other states).

Please let me know by Tuesday next week.

Thanks,
Josh

Hello Jaqueline,

Thanks for the response. And thank you all for your help on this! I am just trying to keep all things moving so we hit (and exceed) the EO goals.

That is useful to know about Alaska. I think we can move quickly on getting ANTHC stood up perhaps.

Regarding Shingle Springs, although it is a tribally run facility I'd argue it is in the IHS family since it is a 638 tribe and they have taken their tribal shares from IHS. And IHS still has inherently federal functions as regards 638 tribal health facilities. Indeed 65% of IHS goes to ISDEAA tribes, so important—at least for this endeavor—to think of them as one. Worthwhile to chat about

That is nice to know about WI.

Yes, we should get a call scheduled for early next week. I have added Jerel to help with scheduling.

Best
Josh

Hi Josh,

Thanks so much for continuing to push these various agencies. Regarding AK, I do not believe the AK health centers are designated and I am unaware if they are providing registration services (though they might be). Here is a list of designated agencies in AK: <https://casetext.com/statute/alaska-statutes/title-15-elections/chapter-1507-registration-of-voters/section-1507055-effective-until-112024-voter-registration->

[agencies](#) It would be welcome news if they are providing registration and if so, perhaps we can push them to seek voluntary designation.

Second, Shingle Springs was designated! As a tribally run health facility, I'm not sure I would count this as an IHS led designated site. I think we were holding them a bit separate in our mind since the tribe initiated the designation process. But open to feedback on that and happy to discuss. They were certainly inspired by the EO to begin the process, although we do think that the ability to seek designation exists for tribally run healthcare centers even absent the EO.

Finally, I wanted to put on your radar that there are facilities in Wisconsin that are working on offering registration though they will not be seeking NVRA designation because Wisconsin does not have NVRA since it has same day registration.

If you think it's a good time, perhaps we have a call to check in next week so we can get a sense of where all of the different parts are moving? Seems like there are a lot of agencies taking good steps and perhaps we can be additionally helpful?

Thanks, Josh!
Jacqueline

Subject: Outreach requests/status for additional sites

Hello,

I am currently in Billings for the quarterly IHS executive leadership meeting. Since I am with all the area directors in person I've been checking in with them about their selected sites for some updates on progress. I wanted to circle back with you all about a few things.

First, the VP tweeted about Native Health! Attached a screen shot. [Here is the tweet](#) (or X whatever it is called). Also, some local press coverage [here](#) and [here](#) and the AZ SoS [press](#) release.

Next, I am still waiting on the remaining pueblo representatives on the governing board for the Santa Fe Service Unit. Dr. Thomas, ALB area director, still says it will happen; just slow moving working with the pueblos.

Byrce Redgrave (Billings area director) Crow Service Unit had a productive meeting with the Secretary of State and Western Native Voice last week. Waiting on a debrief from the service unity leadership Friday.

So, fingers crossed these two come online.

Last week, or the week before (time is fluid lately) we had a follow up call with some of the areas working to designate sites. I wanted to check in if any one of them reached out to you for help on identifying appropriate election officials and what an outreach email could look like? If they haven't reached out to you I can ping them.

They are:

- Native Life Lines in Baltimore
- Oyate Health in Rapid City, SD
- Crown Point Service Unit in New Mexico
- Western Oregon Service Unit in Salem, OR

Also, I had a call with the California and Alaska area offices. The California director was curious about the Shingle Spring Rancheria and if their health center received designation? If so, that would be a tribally run health care facility and thus would help fulfill a requirement (of course we can also stand up another one in California). The Alaska area director was curious if there is a way to find out if there are already NVRA voluntary designations in Alaska. She believes that some of the Alaska Native villages, corporations, or regional corporations (all of Alaska

is Title V) might have received such a designation years ago.

Thanks,
Josh

Quick thought on Wisconsin: would it be possible to get some sort of proclamation from the SoS or Governor for the org in lieu of the NVRA as they are exempt? Obviously something for later on as need to knock of the first five at least.

Best,
Josh

Hello Jaqueline,

Thanks for the response. And thank you all for your help on this! I am just trying to keep all things moving so we hit (and exceed) the EO goals.

That is useful to know about Alaska. I think we can move quickly on getting ANTHC stood up perhaps.

Regarding Shingle Springs, although it is a tribally run facility I'd argue it is in the IHS family since it is a 638 tribe and they have taken their tribal shares from IHS. And IHS still has inherently federal functions as regards 638 tribal health facilities. Indeed 65% of IHS goes to ISDEAA tribes, so important—at least for this endeavor—to think of them as one. Worthwhile to chat about

That is nice to know about WI.

Yes, we should get a call scheduled for early next week. I have added Jerel to help with scheduling.

Best
Josh

Hi Josh,

Thanks so much for continuing to push these various agencies. Regarding AK, I do not believe the AK health centers are designated and I am unaware if they are providing registration services (though they might be). Here is a list of designated agencies in AK: <https://casetext.com/statute/alaska-statutes/title-15-elections/chapter-1507-registration-of-voters/section-1507055-effective-until-112024-voter-registration-agencies> It would be welcome news if they are providing registration and if so, perhaps we can push them to seek voluntary designation.

Second, Shingle Springs was designated! As a tribally run health facility, I'm not sure I would count this as an IHS led designated site. I think we were holding them a bit separate in our mind since the tribe initiated the designation process. But open to feedback on that and happy to discuss. They were certainly inspired by the EO to begin the process, although we do think that the ability to seek designation exists for tribally run healthcare centers even absent the EO.

Finally, I wanted to put on your radar that there are facilities in Wisconsin that are working on offering registration though they will not be seeking NVRA designation because Wisconsin does not have NVRA since it has same day registration.

If you think it's a good time, perhaps we have a call to check in next week so we can get a sense of where all of the different parts are moving? Seems like there are a lot of agencies taking good steps and perhaps we can be additionally helpful?

Thanks, Josh!
Jacqueline

Subject: Re: Touch base next week?

Hi Josh,

Hope you had a restful time off! Do you have any time after 2 pm ET on Tuesday next week?

Subject: RE: Touch base next week?

Hello,

I was on annual leave the last couple weeks and was abroad so had no access to my government IT hardware or systems. Currently, I am at the quarterly meeting of IHS executive leadership in PHX. I can perhaps do something on Friday of this week or earlier next week.

Josh

Hi Josh,

Happy new year! Hope things have been going well. We were hoping to be able to touch base with you some time next week or the week after for updates on the designations campaign. Let us know some times that work for you, thanks!

Ashley
